

Pan-European Collaboration

*Jim Woodcock
University of York
September 2006*

Questions

- *What do you see as obstacles to the VSTTE effort being pursued in your country?*
- *Is there a large enough research group at your university interested in the topic of verified software to form a critical mass for collaboration? What are the main strengths that they could bring to such a collaboration?*
- *Would it be possible to contribute to the VSTTE Grand Challenge across Europe? Can local funds be obtained?*
- *Would you be interested in helping to lead a contribution from your country?*
- *What will you do? Space-flight file store? Repository components? Something else?*
