VII. Examination Schedule and Selection Method

【Before】

(2)　Selection Method

Selection is conducted by an oral examination. Applicants have a choice of speaking in English or Japanese. The total time of the examination is 30 minutes per applicant.
The examinations will be conducted with measures taken to avoid 3 Cs (Closed spaces, Crowded places and Close-contact setting).

① 7 minutes for presentation about the short essay submitted at the time of application.

A document projector is available. Please bring a set of printed materials (plain paper, A4 size) for a document projector to the examination venue. The number of pages is unspecified. Please do not staple them together. It is recommended to use horizontal sheets of paper. (i.e. long sides of a sheet come to the top and bottom.)

● Applicants can use notes during the presentation. However, they are strictly prohibited from distributing any materials and using any other electronic devices.

② 23 minutes for Q&A based on the short essay and the entry form submitted at the time of application.

【After】

(2)　Selection Method

Selection is conducted by an oral examination. Applicants have a choice of speaking in English or Japanese. The total time of the examination is 30 minutes per applicant.
The examinations will be conducted with measures taken to avoid 3 Cs (Closed spaces, Crowded places and Close-contact setting).
Therefore, the examiners will sit in a separate room from the examinees and the examination will be conducted using a video conferencing system.

① 7 minutes for presentation about the short essay submitted at the time of application.

Please bring one copy of printed materials in A4-sized paper on the day of your examination. There is not page limit but please do not staple the materials. They should be printed horizontally (i.e. the longest edge of paper comes to the top and bottom of paper.) Your printed materials will be digitalized by the staff at the reception. The digitalized data will be imported into a device (a laptop etc.) in the examinee's room and projected on a screen in the examiners' room. The examinee will give a presentation using the device (a laptop etc.) in the examinee's room.

● Applicants can use notes during the presentation. However, they are strictly prohibited from distributing any materials and using any other electronic devices.

② 23 minutes for Q&A based on the short essay and the entry form submitted at the time of application.
