

北陸先端科学技術大学院大学研究室教育指針  
Laboratory Education Guideline

研究室教育指針は、学則第30条の3に基づき、研究指導の方法及び内容並びに修了までの研究指導の計画をあらかじめ明示するものです。

Based on the Article 30-3 of the general academic rules, the Laboratory Education Guideline is intended to clearly outline the methods and content of research guidance, as well as the plan for research guidance until completion.

氏名 / name : Yukari NAGAI 役職 / official position : Trustee

|   |
|---|
| 1. 研究テーマ / Research Theme   |
| Knowledge of Design and Creativity  |
| 2. 修得が期待される能力 / Competencies expected to be acquired<br>研究室教育は必修 A 科目（先端）又は研究支援科目（融合）の一部として単位化されており、この欄はそれら科目のシラバス上の達成目標の一部となります。<br>Laboratory Education is accredited as a part of the Required courses A (Division of Advanced Science and Technology) or Research Support Courses (Division of Transdisciplinary Sciences), and this section constitutes a part of the course goals stated in the syllabus for such subjects. |
| Design Thinking, design management and education  |
| 3. 研究指導方針 / Research Guiding Principle  |
| <b>This laboratory aims to develop research competencies that emphasize originality and process knowledge of design, with the aim of discovering social issues through Design Thinking and creative problem-solving through practical research, and requests the students to generate their original ideas and evaluation and verification of them.</b>   |
| 4. 研究室活動の内容及び方法 / Content and Methods of Laboratory Activities  |
| <input type="checkbox"/> 日次活動 / Daily Activities :<br><input type="checkbox"/> 週次活動 / Weekly Activities :<br><input checked="" type="checkbox"/> 月次活動 / Monthly Activities : Biweekly research progress report and presentation<br><input checked="" type="checkbox"/> 不定期活動 / Occasional Activities : Online meeting (Once a month)  |
| 5. 年間スケジュール / Annual Schedule<br>本学の全学共通の年間スケジュールは「履修案内」の「学位取得に至るスケジュール」を参照してください。（本学HP参照：ホーム>教育>履修関係>履修案内）<br>Please refer to the “Degree conferment schedule for the master’s program/doctoral program” in the “Degree Completion Guide” for university-wide common schedule (JAIST website: Home >Education>Taking Courses>Degree Completion Guide)  |
| After being a member of our research lab, students will complete courses and conduct research based on their own research plans with the supervisors. Each student is requested to present mid-term research results at an academic conference or journals and describe them on the thesis. (This laboratory closed to accept a new members after 2019)   |
