

Degree Completion Guide

Graduate School of Advanced Science and Technology
(Division of Transdisciplinary Sciences)

2022-2023

JAPAN ADVANCED INSTITUTE OF
SCIENCE AND TECHNOLOGY

Challenge of the Transdisciplinary Sciences

- Development of Graduate Education for Transdisciplinary Sciences -

Japan Advanced Institute of Science and Technology and Kanazawa University launched a collaborative educational initiative for graduate education with the aim of cultivating human resources of innovative science and technology in Japan who are capable of leading today's society where it is not easy to predict the future, based on great ideas and ability to realize them.

In order to create new knowledge which can be described as the source of innovative science and technology, it is essential to adopt a perspective of integrating different scientific disciplines (transdisciplinary sciences). Inspirations for genuine innovations will come to those who have a thorough knowledge of their own major field but do not limit themselves within the framework, willingly learn, adopt and practice the methodologies and perspectives of other fields for fearless personal transformation.

As part of our educational mission, we strive to explore and practice the methodology of integrating multiple scientific disciplines and progress the integration under the framework beyond the existing scientific disciplines in order to solve complex social problems. We have the education system, contents, methods and such based on this educational mission.

Creation of new knowledge and innovative science and technology cannot be achieved overnight. However, challengers with strong motivation to create new knowledge using the power of transdisciplinary sciences are strongly desired in today's society where there is a mountain of various problems at both regional and global levels.

We would like to invite you to open the door for "new knowledge" together.

President, Japan Advanced Institute of Science and Technology

TERANO Minoru

President, Kanazawa University

WADA Takashi

I. Educational Mission, Goals, Human Resource Development, Degree and Policies of Division of Transdisciplinary Sciences

Japan Advanced Institute of Science and Technology (hereinafter referred to as JAIST) and Kanazawa University have organized a collaborative educational program and established the Division of Transdisciplinary Sciences (hereinafter referred to as the collaborative program) in the Graduate School of Advanced Science and Technology at JAIST and in the Graduate School of Frontier Science Initiative at Kanazawa University respectively, with the aim of cultivating “doctoral human resources who are capable of establishing a foundation for innovative science and technology with unique ideas and outstanding research ability and applying it to the society in corresponding to the global needs and trend.” (hereinafter referred to as human resources of innovative science and technology).

● Educational Mission and Goals

JAIST and Kanazawa University define that the source of innovation originates from the creation of new knowledge and focus on progress of transdisciplinary sciences as a consistent educational mission in order to cultivate human resources of innovative science and technology.

“Progress of transdisciplinary sciences” is defined as “progressing the integration of multiple scientific disciplines while exploring and practicing the methodology beyond the existing framework of scientific disciplines in order to solve complex social problems relevant to innovative science and technology” and our educational system is structured based on this definition.

○ Framework of three innovative challenges (3 challenges)

This collaborative program consists solely of one division instead of offering multiple courses to realize the educational mission above. On the other hand, the framework of three innovative challenges as described below (3 challenges) has been set by consolidating the strengths and characteristics of the two universities in order to surpass the existing scientific disciplines towards solving complex social problems.

I: Life Innovation (Innovation of healthy and high-quality lifestyle)

→ Measurement, analysis and control of biological functions that contribute to healthy living conditions for individuals and its application

II: Green Innovation (Creation of next-generation materials, devices and energy compatible with environment)

→ Generation, storage and transportation of the natural / renewable energy
Development of the energy-saving devices using new materials and nanotechnology

III: Systems Innovation (Building a future life where human and its society coexist with science and technology)

→ Development of intelligent systems utilizing big data and artificial intelligence (AI)
Development of systems and machinery inspired by living organisms
Improvements in social environment considering the natural or cultural aspect

○ Four "Forces" (Force)

In this collaborative program, we are convinced that, in order to explore and practice the methodology to integrate sciences, the Force to leap into different research fields other than one's own and communicate with others from different backgrounds must be acquired. Although it is difficult to define the Force in one definition, the following four Forces have been set as an underlying foundation.

Force 1: The "Force" for Data analysis

Force to conduct multifaceted analysis of data that represents a phenomenon from a perspective of scientific disciplines that are to be integrated

Force 2: The "Force" for Modeling

Force to propose a model that is consistent with the foundation of transdisciplinary fields

Force 3: The "Force" for Visualization

Force to present an illustration that is easy to understand for people from other fields

Force 4: The "Force" for Designing

Force to solve problems while improving one's own proposals through interactions with other fields and the society

Based on this four Forces, students in this collaborative program are required to choose one challenge from the framework of three innovative challenges (3 challenges) and study the curriculum systematically according to the chosen challenge with guidance from a team of advisors. Also, students are expected to explore and practice the methodology to integrate sciences with the four Forces as a foundation, generate new ideas with different knowledge or from different perspectives, and progress a research topic set by the students themselves while proactively interacting with people of various backgrounds such as faculty members, students and working professionals. In addition to that, students are expected to become valuable human resources of innovative science and technology which is the goal of this collaborative program by acquiring five types of competency defined as "Learning Achievements" in the Diploma Policy below.

● Human Resource Development

Doctoral human resources that are capable of creating a foundation of innovative science and technology based on unique ideas and outstanding research ability and applying it to the society according to the needs and trends of the global society.

● Degree

Degrees conferred in this collaborative program and the titles of degree are as below.

Master's Program

Master's Degree (Transdisciplinary Sciences)

Master of Philosophy (MPhil)

Doctoral Program

Doctoral Degree (Transdisciplinary Sciences)

Doctor of Philosophy (Ph.D)

Doctoral Degree (Science)

Doctor of Philosophy in Science

Doctoral Degree (Engineering)

Doctor of Philosophy in Engineering

● Policies

The following policies are established in this collaborative program to advance the education for our students.

Diploma Policy (Division of Transdisciplinary Sciences)

In the master's course, students are required to acquire the five abilities and competencies listed in the "academic achievement" below through the pursuit and practice of a "Methodology for Transdisciplinary Science" based on the four forces listed as the educational philosophy. The degree of "Master of Philosophy" is conferred on students who have mastered these competencies, enrolled in the program for a specified period of time, earned the specified number of credits, and then have passed either the Master Thesis Examination and the Final Examination or the Ph.D. Qualifying Examination.

- 1) Ability to contribute to solve social problems related to science, technology and innovation
- 2) Knowledge and practical skills related to your discipline
- 3) Motivation and ability to be actively involved in the other discipline than your discipline
- 4) Ability to understand academic papers and give brief presentation about your research in foreign language
- 5) Research ethics of science, technology and life

In the doctoral course, students are required to acquire the 1-5 and 6 or 1-5 and 7 abilities and competences listed in the "academic achievement" below through the pursuit and practice of a "Methodology for Transdisciplinary Science" based on the four forces listed as the educational philosophy. The doctoral degree is conferred on students who have mastered these competencies, enrolled in the program for a specified period of time, earned the specified number of credits, and then have passed the Doctoral Dissertation Examination. Among the students mentioned above, those who have acquired the 1-5 and 6 are conferred a doctoral degree "Doctor of Philosophy" and those who have acquired 1-5 and 7 are conferred doctoral degree "Doctor of Philosophy in Science" or "Doctor of Philosophy in Engineering".

- 1) Ability to identify, structure and solve the social problems related to science, technology and innovation
- 2) Cutting-edge knowledge and practical skills related to your discipline
- 3) Ability to utilize knowledge and technology of other disciplines for your discipline
- 4) Ability to present and discuss your research in foreign language in an international conference or a joint research in overseas
- 5) Practical research ethics of science, technology and life
- 6) Ability to integrate your discipline with other disciplines and create new knowledge
- 7) Ability to create new knowledge based on your discipline

Curriculum Policies (Division of Transdisciplinary Sciences)

In order to have students obtain academic achievement which is described in Diploma policy under the framework of three challenges listed in the division's mission, the curriculum of the Division of Transdisciplinary Science is oriented as problem-solving and is systematic based on what students are required to acquire from the program. Specifically, the following courses are designed as a systematically-assigned curriculum.

Master's Program

- 1) Systematically Specialized Courses and Research Support Courses for students to acquire and utilize basic knowledge about your discipline
- 2) Transdisciplinary Experience Courses based on cross-disciplinary research such as a cross-disciplinary seminar and group work and research in the other discipline
- 3) Social Implementation Courses for practical education based on social needs
- 4) Core Courses to foster basic knowledge and attitude toward creation of innovation

Doctoral Program

- 1) Systematically Specialized Courses and Research Support Courses to deepen the knowledge about your discipline
- 2) Transdisciplinary Experience Courses based on cross-disciplinary research such as a cross-disciplinary seminar and group work and research in the other discipline
- 3) Social Implementation Courses for practical education based on social needs
- 4) Courses such as internship in overseas or study abroad to foster global mind

Classes
 Exams
 Holidays
 Seasonal Vacations
 No Classes Day **

- ① Registration Guidance
- ② Orientation for College Students
- ③ Entrance Ceremony (For Degree students)
- # 1st Quarter classes start Apr. 5
- University Founding Day May 31
- Q1 Make-up Classes Week / 6th period on May 16-27
- ④ Health Check for New Coming College Students
- # 2nd Quarter classes start June 10
- Q2 Make-up Classes Week / 6th period on July 15-29
- Conduct Classes for Monday July 15
- Web Campus Visit (temporary) Aug.3-16
- ※Live-streaming (temporary) Aug.9-10
- ⑤ Commencement Ceremony

- ⑥ Entrance Ceremony (For Degree students)
- # 3rd Quarter classes start Oct. 3
- Kanazawa University Festival Oct. 29-30
- Preparations and clean-up for KU Festival Oct. 28, 31
- Conduct Classes for Monday Nov. 1
- Q3 Make-up Classes Week / 6th period on Nov.9,14-25
- # 4th Quarter classes start Dec. 9
- Preparations date for Common Test Jan. 13
- Common test for University Admissions Jan. 14-15
- Q4 Make-up Classes Week / 6th period on Jan. 24-Feb.6
- TOEIC-IP (First Year College Student) Feb. 14-15
- ⑦ KU Admission Examination
- ⑧ Commencement Ceremony

* Class and Exam totals are per quarter.

** There may be supplementary or intensive lectures

III. Study outline

1 Campus

This collaborative educational program is offered in the Division of Advanced Science and Technology at Japan Advanced Institute of Science and Technology in Nomi City, Ishikawa Prefecture and the Graduate School of Frontier Science Initiative at Kanazawa University in Kanazawa City, Ishikawa Prefecture.

2 Programs

The Graduate School of Advanced Science and Technology at JAIST consists of the Division of Advanced Science and Technology and the Division of Transdisciplinary Sciences. The Division of Transdisciplinary Sciences offers a graduate program which is divided into an initial two-year program and a subsequent three-year program. The initial two-year program is called the master's program and the subsequent three-year program is called the doctoral program. This guide describes on the Division of Transdisciplinary Sciences at JAIST. The guide for the Division of Advanced Science and Technology at JAIST and the Division of Transdisciplinary Sciences at Kanazawa University are specified separately.

3 Academic calendar

JAIST academic calendar shows the dates of classes, vacations, institute-wide activities, course registration periods, and so on. Students must check the academic calendar which is displayed on the notice board next to the automatic certificate issuing machine and is published on JAIST's website (Division of Transdisciplinary Sciences, Graduate School of Advanced Science and Technology (hyperlink button) → For Students → Academic calendar (JAIST)).

Students must also check the academic calendar for the Graduate School of Frontier Science Initiative at Kanazawa University which is published on JAIST's website (Division of Transdisciplinary Sciences, Graduate School of Advanced Science and Technology (hyperlink button) → For Student → Academic calendar (Kanazawa University)).

4 Semesters and class terms/periods

Semesters and class terms/periods at JAIST and Kanazawa University are shown in the Appendix Table below. At JAIST, each class is 100-minute long, and a class meets 14 times in one term with two classes a week to complete a course bearing 2 credits. At Kanazawa University, each class is 90-minute long, and a class meets 15 times in one quarter with one class a week to complete a course bearing 2 credits. Refer to the syllabus for details of each course. One credit is awarded for a study load of 45 hours of self-study and classes in total (for courses such as Research Support Courses, one credit is awarded for an adequate result required for a study load defined by one's supervisor).

Appendix Table

Location	Terms	Class Periods
JAIST	First Semester: Term 1-1, Term 1-2 (8 weeks each) Summer Intensive (August, September) Second Semester: Term 2-1, Term 2-2 (8 weeks each) Winter Intensive (February, March) *The Examination Term is set after the lectures in each term. The examinations of Intensive Courses are basically conducted after finishing 14 lectures.	1st Period 9:00 - 10:40 2nd Period 10:50 - 12:30 3rd Period 13:30 - 15:10 (Tutorial hours) 4th Period 15:20 - 17:00 5th Period 17:10 - 18:50
Kanazawa University	First Semester: 15 classes (one class a week) and one examination per quarter 1st Quarter (8 weeks) 2nd Quarter (8 weeks) Second Semester: 15 classes (one class a week) and one examination per quarter 3rd Quarter (8 weeks) 4th Quarter (8 weeks) *The examinations are conducted in the last week of each quarter.	1st Period 8:45 - 10:15 2nd Period 10:30 - 12:00 3rd Period 13:00 - 14:30 4th Period 14:45 - 16:15 5th Period 16:30 - 18:00 6th Period 18:15 - 19:45

IV. Matters related to tuition fees and enrollment

All the procedures from 1 to 6 below must be completed at JAIST.

1 Tuition fees

Tuition fees are collected separately for the full amount for each semester (first semester: April 1st - September 30th, second semester: October 1st - March 31st), and as a rule are to be paid by bank transfer (see details in *HANDBOOK for Students*). Note that if the tuition fees are revised while in school, the new fees will be applied upon the revision.

2 Leaves of absence

When students are not able to progress in your study for more than two consecutive months due to illness or other special reasons, they may apply for a leave of absence. The maximum period of leave in total for each of the programs, the master's and the doctoral, is 12 months. Please note that as the leave of absence is not counted in the total period required to complete a degree, study progression including course registration and research mentoring will not be recognized during the leave of absence, but there are no restrictions on use of the JAIST library or intra-school email.

The start date of a leave of absence should be the first of each month, and it will not be permitted midway through a month. If you wish to apply for a leave of absence, you must collect an Application for Leave of Absence from the Educational Service Section (hereafter, Kyoumu) and get approval from the supervisors, and submit the application to Kyoumu by the end of the month two months prior to the month in which the leave of absence begins. If leave of absence is due to bad health, you must submit a doctor's statement also.

Please note that if the tuition payment is not completed before the desired leave of absence start date, the application will not be accepted.

If you wish to have a leave of absence midway through either semester, and you submit an application by April 10th (for the first semester) or October 10th (for the second semester), tuition will not be charged for the leave of absence. If the application is made after these dates, the full amount of tuition must be paid before the application is accepted. Check details of tuition fee payment during leaves of absence on the JAIST website (Division of Transdisciplinary Sciences, Graduate School of Advanced Science and Technology (hyperlink button) → For Student → Absence and Withdrawal (JAIST)).

3 Returning

You return when the leave of absence ends. If you wish to return to school before the end of the leave of absence, you must collect an Application for Returning at Kyoumu and submit it to Kyoumu by the end of the month two months prior to the month of returning. Returning status starts on the first day of the month.

4 Withdrawal

A date for withdrawal should be the last day of the month, and withdrawal midway through the month is not permitted. Students who wish to withdraw must collect an Application for Withdrawal from Kyoumu and obtain comments from the supervisors, and submit the application to Kyoumu by the end of the month two months prior to the month of withdrawal.

Regardless of the date of withdrawal, if the tuition and other fee payments required by JAIST are not completed, the application will not be accepted.

5 Disenrollment (loss of student status)

Students falling under any one of the following categories will result in the loss of student status:

- (1) Those who have spent more than the permitted maximum periods (four years for the master's program, six years for the doctoral program)
*Students who wish to withdraw must complete the withdrawal procedures.
- (2) Those whose leave of absence exceeds the period specified in Paragraph 4, Article 27 of the JAIST School Regulations (two years).

- (3) Those who have not paid the entrance fee by the specified date and fall into one of the categories below:
- Students who have not been granted an entrance fee reduction or deferment.
 - Students who have not been granted a half entrance fee reduction or deferment.
 - Students whose entrance fee reduction or deferment has been revoked.
- (4) Those who have neglected to pay their tuition fees and have not paid even at urging.
- Note that if course credits have been earned during the period in which the tuition was unpaid for those who fall under either (3) or (4), the credits will also be cancelled.

6 Supplemental student status

Doctoral students who have spent more than three years in the doctoral program may be allowed to keep student status for a maximum period of two years only if they have met all the following requirements:

- (1) Have obtained all the required credits for degree completion, except for credits from "Doctor Thesis Report II".
- (2) Have submitted the outline of doctoral dissertation with the necessary research guidance from the supervisor by the designated date.
- (3) Have been judged by the dean that the students will be able to apply for a degree conferment within two years.

Supplemental student status can start only on April 1, July 1, October 1 or January 1. It cannot start subsequently right after leave of absence. Those who wish to apply for this status must request a form at Kyoumu, consult the supervisor to be given a comment on the form, and submit it to Kyoumu by the end of the month two months prior to the month in which the status begins. This status restricts you to conduct any academic work on campus, thus JAIST does not sponsor you to apply/extend/renew your student visa for the period.

7 Name changes

If you have changed your name, you must submit a Notification of Change of Name with evidential documents attesting to the change (e.g. a new resident's registration) to Kyoumu. After acceptance of the notification, all certificates and documents of JAIST will be issued with your new name. If you wish to continue using the old name at JAIST, notify it to Kyoumu when submitting the notification, and your name will remain unchanged even after the acceptance of your notification. Certificates will be issued only with the name registered in JAIST records.

V. Matters related to taking courses

1 Degree completion requirements

In this collaborative program, which aims to cultivate human resources of innovative science and technology, the following courses are systematically organized in the curriculum based on the elements that students are expected to learn in these courses in light of the educational mission, goals and curriculum policies.

It is insufficient for you merely to take lectures with a passive attitude. To acquire abilities that will benefit you in the future, JAIST expects you to actively develop the seeds of social, organizational, or technological innovation for the next era while learning advanced science and technology and understanding social and organizational problems through your learning process.

2 Course divisions and credit requirements for the master's program

2.1 Core Courses

The courses below (1 credit each) are offered from Term 1-1 to Term 2-1 in the first year and students must take at least 2 courses (2 credits) of the 5 courses (5 credits) below as required elective courses. In these courses, students will build fundamental knowledge base for conducting research to solve complex social problems related to innovative science and technology.

Innovation Theory and Methodology for Social Competencies (JAIST)

Innovation Theory and Methodology for Creativity (JAIST)

Research Ethics (Kanazawa University)

Advanced Science and Technology in the Next Generation (Kanazawa University)

Innovation Methodology (Kanazawa University)

Management of Technology (Kanazawa University)

MoT as for Disruptive Innovation (Kanazawa University)

Smart Science and Technology for Innovation (Kanazawa University)

Innovation in Healthcare (Kanazawa University)

Human and Social Challenges (Kanazawa University)

"Statistics for Data Analytics" (JAIST/2 credits), "Introduction to Practical Data Analysis and Statistics a" and "Data Science in Society 5.0" (Kanazawa University/1 credit each) are also offered from Term 1-1 to Term 1-2 in the first year and students must earn at least 2 credits as required elective courses from these courses. These courses are designed to promote mainly `Force 1: The"Force" for Data analysis' and `Force 3: The"Force" for Visualization' of `Four "Forces" (Force)' which serve as the foundation of the methodology for integrating sciences.

[Credit Requirements] *Students must satisfy both of the requirements below.

(1) Earn at least 2 credits from the courses below. (1 credit each)

Innovation Theory and Methodology for Social Competencies (JAIST)

Innovation Theory and Methodology for Creativity (JAIST)

Research Ethics (Kanazawa University)

Advanced Science and Technology in the Next Generation (Kanazawa University)

Innovation Methodology (Kanazawa University)

Management of Technology (Kanazawa University)

MoT as for Disruptive Innovation (Kanazawa University)

Smart Science and Technology for Innovation (Kanazawa University)

Innovation in Healthcare (Kanazawa University)

Human and Social Challenges (Kanazawa University)

(2) Earn at least 2 credits from the courses below.

Statistics for Data Analytics (JAIST) (2 credits)

Introduction to Practical Data Analysis and Statistics a (Kanazawa University) (1 credit)

Data Science in Society 5.0 (Kanazawa University) (1 credit)

2.2 Transdisciplinary Experience Courses

"Transdisciplinary Session I" (2 credits) is offered in August in the first year and "Transdisciplinary

Laboratory rotation Ia” and “Transdisciplinary Laboratory rotation Ib” (1 credit each) are offered from Term 2-1 to Term 2-2 in the first year at both universities as required courses.

“Transdisciplinary Session I” takes the form of a joint session between JAIST and Kanazawa University and consists of general discussions, presentations of research proposals by students and Q&A sessions. Its aim is to adopt the knowledge and methodologies of different fields beyond the existing academic or research fields by presenting one’s research to other students and better understanding each other, and also to deepen the understanding of one’s research further by taking an opportunity to review the topic, direction or purpose of one’s research. This course is designed to promote `Force 2 : The"Force" for Modeling’ of `Four "Forces" (Force)’ which serve as the foundation of the methodology for integrating sciences.

In “Transdisciplinary Laboratory rotation Ia” and “Transdisciplinary Laboratory rotation Ib”, students participate in more than 2 weeks (per a credit) laboratory rotations in different laboratories from your major field and take experimental and theoretical research practice. In these laboratory rotations, students can learn practical knowledge of research methods and ideas of a different field while acquiring comprehensive knowledge and skills beyond your own major field. New knowledge and perspectives gained in these rotations will facilitate students to generate new ideas and develop a basic mindset which gives you an objective perspective on your own research topic resulting in exploring the potential of research integration.

For “Transdisciplinary Laboratory rotation Ia” and “Transdisciplinary Laboratory Rotation Ib”, the following 4 courses are offered at JAIST and Kanazawa University (depending on the laboratory the student belongs to).

Transdisciplinary Laboratory rotation Ia (JAIST)

Transdisciplinary Laboratory rotation Ib (JAIST)

Transdisciplinary Laboratory rotation Ia (KU)

Transdisciplinary Laboratory rotation Ib (KU)

Either “Transdisciplinary Laboratory rotation Ia (KU)” or “Transdisciplinary Laboratory rotation Ib (KU)” must be completed as part of the credit requirements. For selection of rotations, students must decide which laboratories to identify considering discussion with own supervisor and lessons learned from “Transdisciplinary Session I”. This course is designed to foster mainly `Force 4 : The"Force" for Designing’ of `Four "Forces" (Force)’ which serve as the foundation of the methodology for integrating sciences.

[Credit Requirements] *Students must satisfy both of the requirements below.

(1) Take Transdisciplinary Session I (2 credits).

(2) Earn 1 credit from the courses below (1 credit each).

Transdisciplinary Laboratory rotation Ia (KU)

Transdisciplinary Laboratory rotation Ib (KU)

2.3 Social Implementation Courses

These courses are required elective and consist of 1 or 2 credit offered “Industrial Internship” and “Research Internship”. In these courses, students go through a field-based learning. You learn, based on Four "Forces" (Force) you have developed so far, how research with high potential becomes a successful business in actual workplaces and how it leads to innovation. Students must determine your host company (domestic or foreign private companies, public research institutions, etc.) under the guidance of your supervisor and complete the necessary procedures at Kyoumu and the Career Support Section at least two weeks before the starting date of “Industrial Internship”. For “Research Internship”, students must complete the necessary procedures at Kyoumu at least two months before the starting month of the internship. The standard duration of “Industrial Internship” and “Research Internship” is 1 – 2 weeks. Students are required to write a report after the internship

and also report achievements in optional forms to your supervisor.

[Credit Requirements] *Students must complete one of the followings.
Industrial Internship a (JAIST) (1 credit) *Duration of min. one week and less than two weeks
Industrial Internship b (JAIST) (2 credits) *Duration of min. 2 weeks
Research Internship a (JAIST) (1 credit) *Duration of min. one week and less than two weeks
Research Internship b (JAIST) (2 credits) *Duration of min. 2 weeks

2.4 Specialized Courses

Students must earn at least 10 credits (at least 12 credits for those who choose "Survey for Doctoral Research Plan") as required elective courses from "Specialized Courses" which are aimed to develop specialist knowledge according to one's own research topic based on the basic knowledge and skills acquired in the first and second year.

"Specialized Courses" is classified into 4 categories which are Common Subjects, Life Science Subjects, Materials Science Subjects and Social Systems Science Subjects. Based on this classification, students must choose courses from at least 2 categories according to the framework of the three innovative challenges (3 challenges) under the guidance of your supervisor with the following as a reference. This will enable students to integrate multiple scientific disciplines in addition to improving your specialist knowledge.

I: Students who choose Life Innovation: Life Science Subjects

II: Students who choose Green Innovation: Materials Science Subjects

III: Students who choose Systems Innovation: Social Systems Science Subjects or Materials Science Subjects

[Credit Requirements] *Students must satisfy both of the requirements below.
(1) Students who choose "Master's Thesis Project" or "Research Project" as a form of your research report must earn at least 10 credits from "Specialized Courses". Students who choose "Survey for Doctoral Research Plan" must earn at least 12 credits from "Specialized Courses".
(2) Students must choose courses from at least 2 categories out of Common Subjects, Life Science Subjects, Materials Science Subjects and Social Systems Science Subjects according to the one of the three innovative challenges (3 challenges) that students chose after discussing with your supervisor.

2.5 Research Support Courses

From the last half of the first year to the second year, "Seminar and Exercise I" (2 credits) where students receive instructions and supervision from your second supervisor and present your research outcomes at the mid-term presentation mentioned below is offered.

Also, as supportive courses for research summary, "Master Thesis Report I" (6 credits), "Research Project" (2 credits) and "Survey for Doctoral Research Plan" (2 credits) are designed. They are required elective, students must select one of the 3 options and receive instructions and supervision from your supervisor.

The final form of your research summary, in accordance with own idea of research topic, students should discuss with your supervisor and choose from (1) - (3) below. Then, students are required to submit "Research Proposal" which summarizes your ongoing research plan to Kyoumu by the end of March in the first year and determine the form of your research summary. In Research Support Courses, students will consolidate and sublimate the Four "Forces" (Force) cultivated so far and work on your research topic using sufficiently developed specialist knowledge.

(1) Master's Thesis Project

Students who set a research theme which constructs, verifies and develops a hypothesis or a model or a research theme which develops innovative technology to contribute to solving social problems based on the 3 challenges should choose this option and summarize your research in the form of a thesis.

Elective course: Master Thesis Report I (6 credits)

(2) Research Project

Students who set a research theme which derives the correlation or causal connections of phenomena, proposes a roadmap for science and technology and new concepts and designs the future based on comprehensive facts and data including previous research to contribute to solving social problems based on the 3 challenges should choose this option.

Elective course: Research Project (2 credits)

(3) Survey for Doctoral Research Plan

This option is recommended for students who wish to progress to the doctoral program. It is essential that the research plan leads to the research theme in the doctoral program and the achievements must be summarized in a Survey Report for Doctoral Research Plan.

Elective course: Research Planning for Ph.D Course (2 credits)

[Credit Requirements] *Students must satisfy the respective requirements according to the chosen form of your research report.

(1) Master's Thesis Project

Must take "Master Thesis Report I (JAIST)" (6 credits) and "Seminar and Exercise I (KU)" (2 credits).

(2) Research Project

Must take "Research Project (JAIST)" (2 credits) and "Seminar and Exercise I (KU)" (2 credits).

Must earn at least 4 credits from "Transdisciplinary Experience Courses (excluding "Transdisciplinary Session I"), Social Implementation Courses or Specialized Courses in addition to the credit requirements and the total number of required credits in Section 2.1 to 2.4 after discussing with the supervisor.

(3) Survey for Doctoral Research Plan

Must take "Research Planning for Ph.D Course (JAIST)" (2 credits) and "Seminar and Exercise I (KU)" (2 credits).

Must earn at least 4 credits from "Transdisciplinary Experience Courses (excluding "Transdisciplinary Session I"), Social Implementation Courses or Specialized Courses in addition to the credit requirements and the total number of required credits in Section 2.1 to 2.4 after discussing with the supervisor.

3 Degree completion requirements for the master's program

Degree completion requirements are shown below. All the academic activities should be planned with the advice of the assigned supervisor and other advisors. Students are responsible for reviewing own gaining credits carefully to satisfy the requirements of degree completion.

- (1) In principle, students are required to spend a minimum of two years in the master's program. If a prior application for fast-track degree completion is made and granted, and the plan for fast-track degree completion (one year minimum) is carried out with the academic grades deemed sufficiently high by faculty, according to Article 36 of the JAIST School Regulations, one will be able to finish in less than two years. Those who wish to apply for fast-track degree completion should contact Kyoumu by the date designated by JAIST.
- (2) Students must submit a master's thesis or a research project report after receiving sufficient research guidance, and pass the defense on the thesis and the final examination. Those who choose a Survey for Doctoral Research Plan must submit a report of Survey for Doctoral Research Plan, and pass the Ph.D. Qualifying Examination.
- (3) Students must earn a total of at least 10 credits from each of the courses offered at JAIST and Kanazawa University respectively(excluding the credits recognized in Section 9 mentioned below). Because there is a requirement in Section 2.2 and 2.5 for the number of credits that needs to be earned at Kanazawa University as specified below, students are required to earn at least 6 credits from courses offered at Kanazawa University.

- Transdisciplinary Experience Courses

Transdisciplinary Session I (1 credit: 1 of the 2 credits is counted as a credit earned at Kanazawa University.)

Transdisciplinary Laboratory rotation Ia (KU) or Transdisciplinary Laboratory rotation Ib (KU) (1 credit)

- Research Support Courses

Seminar and Exercise I (2 credits)

- (4) Students must earn a total of at least 32 credits including the credits recognized by satisfying the credit requirements specified in Section 2.1 to 2.5 above. Those who choose "Survey for Doctoral Research Plan" as the form of your research summary must earn a total of at least 34 credits.

With regards to the courses offered by divisions other than this collaborative program at JAIST and Kanazawa University, a maximum of 6 credits can be counted toward the degree completion requirements as "Optional Courses" including the credits recognized in Section 9 and 10 mentioned below. (For courses offered at JAIST, only K/I/M/Nxxx courses in the Division of Advanced Science and Technology are applicable.)

4 Course divisions and credit requirements for the doctoral program

4.1 Transdisciplinary Experience Courses

"Transdisciplinary Session II" (2 credits) and "Transdisciplinary Laboratory rotation II" (1 credit) are offered as required courses from the first year. They are offered as the upgraded version of "Transdisciplinary Session I" and "Transdisciplinary Laboratory rotation I" respectively. Students at JAIST are required to take "Transdisciplinary Laboratory rotation II" offered at Kanazawa University.

"Transdisciplinary Session II" is offered as a required course in the second half of the first year in the form of collaboration between JAIST and Kanazawa University. In this course, students are required to present your research to other students and participate in discussions as well as participating in group work where they work on a theme of transdisciplinary sciences with the application of sciences to society in mind (e.g. developing a new product, starting a new business or finding solutions to social problems, etc.) in order to adopt the knowledge and methodologies of different fields beyond the existing academic fields. This course aims to further develop mainly "Force 2 : The"Force" for Modeling" of "Four "Forces" (Force)".

In "Transdisciplinary Laboratory rotation II", students, from the first year to the second year, participate in more than 2 weeks a laboratory rotation in different laboratories from your major field and take experimental and theoretical research practice in order to acquire practical knowledge of research methods and ideas of a different field. The host laboratory will be that of Kanazawa University. This laboratory rotation will allow students to explore the potential of transdisciplinary research while acquiring comprehensive knowledge and skills beyond your own major field by conducting experimental and theoretical research. This course aims to enhance mainly "Force 4 : The"Force" for Designing" of "Four "Forces" (Force)".

[Credit Requirements] *Students must satisfy both of the requirements below.

(1) Take "Transdisciplinary Session II". (2 credits)

(2) Take "Transdisciplinary Laboratory rotation II (KU)". (1 credit)

4.2 Social Implementation Courses

"Overseas Research Challenge" (1, 2 or 4 credits) where students participate in an overseas research program at a foreign university or foreign research institution and "International Internship" (1 credit) where students participate in an internship at a foreign or global company are offered as required elective courses. In "Overseas Research Challenge", 1, 2 or 4 credits are granted according to the duration of the program. These courses will give students an opportunity to learn new ways of approaching your research from different fields at a higher level and deepen the understanding

of your own research theme even further.

Students must decide your host university, research institution or company under the guidance of your supervisor and complete the necessary procedures at Kyoumu and the Career Support Section at least two weeks before the starting date of "International Internship". For "Overseas Research Challenge", students must complete the necessary procedures at Kyoumu at least two months before the starting month of the program. Students are required to write a report after the program/internship and also report achievements in optional forms to your supervisor and second supervisors.

[Credit Requirements] *Students must complete one of the followings.
Overseas Research Challenge A (JAIST) (1 credit) *Duration of min. one week and less than two weeks
Overseas Research Challenge B (JAIST) (2 credits) *Duration of min. two weeks and less than two months
Overseas Research Challenge C (JAIST) (4 credits) *Duration of min. 2 months
International Internship (JAIST) (1 credit) *Duration of min. 2 weeks

4.3 Specialized Courses

"Innovation Theory and Methodology for Total Capability Development" (JAIST) and "Research Ethics for Next Generation" (KU) (1 credit each) are offered in the first year as required elective courses. In these courses, students cultivate an ability to build good relationship with real world and an ability to actualize the future needs using practical methods.

Students must earn at least 9 credits including one of the credits mentioned above as required elective courses from "Specialized Courses", which are aimed to cultivate specialist knowledge according to your own research topic based on the basic knowledge and skills acquired in the first year to the third year.

"Specialized Courses" is classified into 4 categories which are Common Subjects, Life Science Subjects, Materials Science Subjects and Social Systems Science Subjects. Based on this classification, students must choose courses from at least 2 categories according to the framework of the three innovative challenges (3 challenges) under the guidance of your supervisor with the following as a reference. This will enable students to acquire comprehensive and deepened specialist knowledge from the perspective of transdisciplinary sciences in addition to developing specialist knowledge.

I: Students who choose Life Innovation: Life Science Subjects

II: Students who choose Green Innovation: Materials Science Subjects

III: Students who choose Systems Innovation: Social Systems Science Subjects or Materials Science Subjects

"Statistics for Data Analytics II" (JAIST) and "Introduction to Practical Data Analysis and Statistics" (KU) (2 credits each) are offered for those who have never studied subjects such as statistics in order to equip them with the required level of knowledge to conduct research of transdisciplinary sciences in the doctoral program and enhance `Force 1 : The "Force" for Data analysis' and `Force 3 : The "Force" for Visualization' of the `Four "Forces" (Force)'. Although students are strongly advised to discuss taking these courses with your supervisor, the earned credits are not counted toward the completion requirements.

[Credit Requirements] *Students must satisfy all the requirements below.
(1) Earn at least 1 credit from the courses below. (1 credit each)
Innovation Theory and Methodology for Total Capability Development (JAIST)
Research Ethics for Next Generation (KU)
(2) Earn at least 9 credits from "Specialized Courses" including 1 credit earned in (1).
(3) Take courses from at least 2 categories from Common Subjects, Life Science Subjects, Materials Science Subjects and Social Systems Science Subjects according to the one of the three innovative challenges (3 challenges) that students chose after discussing with their supervisor. The credit(s) earned in (1) above can be counted toward the credit requirements

for Common Subjects.

4.4 Research Support Courses

"Seminar and Exercise II" (4 credits) and "Doctor Thesis Report II" (6 credits) are offered as required courses. In "Seminar and Exercise II", students will receive supervision and advice from the second supervisor chosen from faculty of Kanazawa University. In addition, students will acquire new ways of approaching your research through joint research, discussions and group study with other students of different major fields from your own and deepen the understanding of your own research theme under the guidance of the second supervisor.

Also, "Doctor Thesis Report II" is designed as a supportive course for research summary. Students are required to submit "Research Proposal" about your doctoral research to Kyoumu by March in the first year and receive research guidance from your supervisor in all aspects of their research including how to make the best use of the "Four Forces" (Force) that students have been developing so far or new knowledge and skills acquired in a laboratory rotation and from research guidance received in other research fields in order to write your doctoral dissertation.

[Credit Requirements]

Must take "Seminar and Exercise II (KU)" (4 credits) and "Doctor Thesis Report II (JAIST)" (6 credits).

5 Degree completion requirements for the doctoral program

Students must satisfy all the requirements listed below for degree completion. It is the responsibility of each student to discuss with your supervisor and check whether or not they satisfy these requirements.

- (1) In principle, to be eligible for a doctoral degree from JAIST, students are required to spend a minimum of five years in a graduate institute (including the time spent in the master's program). If an application for fast-track degree completion is made by the specified time, and it is recognized at a faculty meeting that there are excellent research achievements, one will be able to complete a doctoral program in a shorter time after spending a minimum of three years (including the time spent in the master's program) according to Article 37 of the JAIST School Regulations. Those who wish to apply for fast-track degree completion should contact Kyoumu by the date designated by JAIST.
- (2) Students must submit a doctoral dissertation after receiving sufficient research instructions, and pass the defense on the dissertation and the final examinations.
- (3) Students must earn a total of at least 10 credits (excluding the credits recognized in Section 9 mentioned below) from courses offered at JAIST and Kanazawa University except for those who progressed to the doctoral program from the master's program of this collaborative program by the Internal Entrance Examination.
- (4) Students must earn a total of at least 23 credits including the credits recognized by satisfying the credit requirements specified in Section 4.1 to 4.4 mentioned above.
With regards to the courses offered by divisions other than this collaborative program at JAIST and Kanazawa University (for courses offered at JAIST, only K/I/Mxxx courses except K/I/M1xx courses in the Division of Advanced Science and Technology are applicable.), a maximum of 2 credits can be counted toward the degree completion requirements as "Specialized Courses" (Common Subjects) including the credits recognized in Section 10 mentioned below.

(Reference) [Master's Program] Summary of Credits Requirements

Course Division	Course Title/Notes	Offered by	Offered Credits	Type of Requirement	Credits To Be Earned			Of which, To Be Earned from KU.
					Master Thesis Report	Research Project	Research Planning for Ph.D Course	
Core Courses	Innovation Theory and Methodology for Social Competencies	JAIST	1	Required Elective	2	2	2	※
	Innovation Theory and Methodology for Creativity	JAIST	1					
	Research Ethics	KU	1					
	Advanced Science and Technology in the Next Generation	KU	1					
	Innovation Methodology	KU	1					
	Management of Technology	KU	1					
	MoT as for Disruptive Innovation	KU	1					
	Smart Science and Technology for Innovation	KU	1					
	Innovation in Healthcare	KU	1					
	Human and Social Challenges	KU	1					
	Statistics for Data Analytics	JAIST	2	Required Elective	2	2	2	※
	Introduction to Practical Data Analysis and Statistics a	KU	1					
	Data Science in Society 5.0	KU	1					
Transdisciplinary Experience Courses	Transdisciplinary Session I	JAIST-KU Joint	2 (J1·KU1)	Required	2	2	2	1
	Transdisciplinary Laboratory Rotation Ia (KU) Transdisciplinary Laboratory Rotation Ib (KU)	JAIST	each 1	Required Elective *1 credit from Ia (KU) or Ib (KU) must be included	1	1	1	1
	Transdisciplinary Laboratory Rotation Ia (JAIST) Transdisciplinary Laboratory Rotation Ib (JAIST)	KU	each 1					
Social Implementation Courses	Industrial Internship a (JAIST)	JAIST	1	Required Elective	1	1	1	/
	Industrial Internship b (JAIST)	JAIST	2					
	Research Internship a (JAIST)	JAIST	1					
	Research Internship b (JAIST)	JAIST	2					
Specialized Courses	<i>Students must take courses from 2 or more of 4 subject categories, Common, Life Science, Materials Science and Systems Innovation.</i>	JAIST	1or2	Required Elective	10	10	12	※
		KU						
Research Support Courses	Seminar and Exercise I (KU)	KU	2	Required	2	2	2	/
	Master Thesis Report I (JAIST)	JAIST	6	Required Elective	6	2	2	
	Research Project (JAIST)	JAIST	2					
	Research Planning for Ph.D Course (JAIST)	JAIST	2					
/	<i>Those who choose "Research Project" or "Research Planning for Ph.D Course" must earn at least 4 credits from "Transdisciplinary Experience Courses" (excluding "Transdisciplinary Session I"), "Social Implementation Courses" or "Specialized Courses" in addition to a total of required credits above.</i>	JAIST	1or2	Required Elective	/	4	4	※
KU								
Optional Courses	<i>Students earn freely at least 6 credits from all the categories except for "Transdisciplinary Session I" and Research Support Courses in addition to a total of required credits above. The credits earned at other than this collaborative program can be counted up to 6 including those recognized by credits transfer or those offered by other graduate institute through the course interchange agreement. Credits earned in Division of Advanced Science and Technology in JAIST are limited to those of K, I, M, and Nxxx courses.</i>	JAIST	1or2	Required Elective	6	6	6	※
		KU						
Total					32	32	34	10

※ implies that students must earn credits by KU offering courses so that the total of ※ is at least 6 credits.

(Reference) 【Doctoral Program】 Summary of Credits Requirements

Course Division	Course Title/Notes	Offered by	Offered Credits	Type of Requirement	Credits To Be Earned	Of which, To Be Earned from KU.
Transdisciplinary Experience Courses	Transdisciplinary Session II	JAIST-KU Joint	2 (J1・KU1)	Required	2	1
	Transdisciplinary Laboratory Rotation II (KU)	KU	1	Required	1	1
Social Implementation Courses	Overseas Research Challenge A (JAIST)	JAIST	1	Required Elective	1	/
	Overseas Research Challenge B (JAIST)	JAIST	2			
	Overseas Research Challenge C (JAIST)	JAIST	4			
	International Internship (JAIST)	JAIST	1			
Specialized Courses	Innovation Theory and Methodology for Total Capability Development	JAIST	1	Required Elective	1	4 (※)
	Research Ethics for Next Generation	KU	1			
	<p><i>Students must take courses from 2 or more of 4 subject categories, Common, Life Science, Materials Science and Systems Innovation.</i></p> <p><i>It is sufficient for you to take either "Innovation Theory and Methodology for Total Capability Development"(JAIST) or "Research Ethics for Next Generation"(KU) to fulfill the category requirement of Common Subjects.</i></p> <p><i>The credits earned at other than this collaborative program can be counted up to 2 as the one of Common Subjects. Those earned in Division of Advanced Science and Technology in JAIST are limited to those of K, I and Mxxx courses excluding those of K, I, M1xx series.</i></p>	JAIST	each 2	Required Elective	8	
	KU					
Research Support Courses	Seminar and Exercise II (KU)	KU	4	Required	4	4
	Doctor Thesis Report II (JAIST)	JAIST	6	Required	6	/
Total					23	10

※ implies that, with the exception of those who proceeded from Master's course of this collaborative program, students must earn at least 4 credits from Specialized Courses offered by KU.

6 Course-related procedures

6.1 Gakumu System (Academic Affairs System)

JAIST uses the Gakumu System for all procedures related to course registration, grade checking, and so on for courses offered at JAIST. Make sure that you fully understand how to use the system so as not to have any problems with registration or other actions. If there are any unclear points after reading the manual, contact Kyoumu.

[Logging in to the Gakumu System]

<JAIST top page → Education → Taking Courses → Gakumu System (Academic Affairs System)>

*Note that the user ID for login is the same as the ID assigned at matriculation, and the password is the same one used for JAIST Mail.

6.2 Syllabi

Syllabi can be viewed on the Gakumu System and on the JAIST website (Division of Transdisciplinary Sciences, Graduate School of Advanced Science and Technology (hyperlink button) → For Student→ Syllabi). Copies of the syllabus booklet are not available.

6.3 Course registration

Plan your course registration properly by checking the class schedule and the course syllabi carefully. Neither registration of two courses which have overlapping schedules (even if only partially), nor registration of courses from which you have obtained credits will be allowed. Note that the credits for courses taken after enrollment with the same code but offered in different languages (e.g. K211 and K211E) are regarded as the same course.

The registration process for courses offered at JAIST is explained in this guide as below. The process for courses offered at Kanazawa University will be separately explained in another way.

Students in this collaborative program must take courses held at the Ishikawa Campus. You must also register online for non-credit courses in order to attend them.

Make course registration through the Gakumu System. Check the system manual for how to register for courses online (JAIST top page → Education → Taking Courses → Gakumu System (Academic Affairs System) → student manual → Course Registration/Grades).

All the academic activities should be planned with the advice of your supervisor. Register online for courses through the Gakumu System during the designated period for each term after a consultation with your supervisor. You can add, change, and cancel courses freely during the designated registration period, however once the registration period ends, no course can be added/removed without exception. You are responsible for reviewing your registration carefully, correcting any mistakes and making sure the course registration properly done. Confirm the course registration period for each term on the academic calendar.

Notification of intensive courses and other irregular courses will be made to students once the schedules have been set.

7 Examinations, grade assessments, etc.

- (1) A final exam will generally be given to complete a course. When exams are difficult to be given, research reports or similar tasks will be required for grade assessment.
- (2) Grades are assessed by the result of a final examination and student's achievement using a 100 point scale with 60 points or higher being considered "Passing", and 59 points or less being considered "Failing" based on the view point, method, and criteria listed in the syllabus. Courses which are difficult to score with points will be assessed as either "Pass" or "Fail". The specified credits will be awarded to those who receive a "Passing" evaluation.
- (3) Credits that have already been obtained cannot be canceled.
- (4) Grades for courses offered at JAIST can be confirmed on the Gakumu System around two weeks after the end of each term, and grades for courses offered at Kanazawa University can be confirmed once notification for grade reports is sent from Kyoumu. Contact Kyoumu for any questions regarding grade assessments.

- (5) If there is any doubt about the grade assessments, confirm it with the instructor of the course within 14 days (excluding holidays) from the date the grade was disclosed.
If you still have an objection after receiving an explanation from the instructor, you may file an objection within 14 days (excluding holidays) from the date you received the explanation.
Please contact Kyoumu for the procedure for filing an objection. As to objection procedure about the grades for courses offered at KU, you will be notified separately.
- (6) If there are any improprieties related to taking courses or examinations, all credits for that semester will be withdrawn.
- (7) JAIST may calculate an objective academic performance index based on (1) and (2) so that it might be used for certain procedures that JAIST deems necessary.

8 Course evaluations

To help improve class quality, JAIST asks you to provide an evaluation for each course you have attended at the end of the course. The results are notified to the course instructors after grades are reported.

9 Recognition of credits obtained prior to admission

Credits obtained prior to admission can be recognized as credits obtained at JAIST by credits transfer. If you wish to apply for credits transfer, obtain approval from your supervisor and submit an application form "Request for Transfer Credit Evaluation" to Kyoumu within three weeks of enrollment. Download the application form from the JAIST website (JAIST top page → Education → Academic Procedures → Request for Transfer Credit). To transfer credits obtained at other graduate institutes, the official transcript and syllabi for the courses must be submitted as well.

The result of application for credit transfer will turn up on the Gakumu system around two months after matriculation, you are responsible to confirm it. You are not allowed to change or withdraw once it has been approved. The grade of the transferred course is recorded as "T" (Transferred), however by taking the same course at JAIST after enrollment, the numerical grade will be overwritten.

Check the following details.

(1) Credits obtained at other graduate institutes

(Master's Program)

With regards to the credits obtained in the master's program at other graduate institutes prior to enrolment to JAIST, a maximum of 6 credits (including courses offered in the Division of Advanced Science and Technology) can be transferred as K/I/Mxxx courses with approval at a faculty meeting. These credits can be counted toward the degree completion requirement as "Specialized Courses" (courses offered in the master's program in the Division of Transdisciplinary Sciences only) or "Optional Courses".

(Doctoral Program)

With regards to the credits obtained in the doctoral program at other graduate institutes prior to enrolment to JAIST, a maximum of 2 credits (courses offered in the doctoral program in the Division of Transdisciplinary Sciences only) can be transferred as K/I/Mxxx courses with approval at a faculty meeting. (This does not apply to those who progressed from the master's program in the Division of Transdisciplinary Sciences by the Internal Entrance Examination.) These credits can be counted toward the degree completion requirement as "Specialized Courses".

(2) Credits obtained as a JAIST non-degree seeking student

All credits of the courses successfully obtained in the year you enter as a degree seeking student will be recognized in the master's program.

(3) Other

Please contact Kyoumu.

10 Taking courses at other graduate institutes through the course interchange agreement

To promote exchange and cooperation with the graduate institutes listed in the Appendix Table (hereafter referred to as "Partner Institutes") and to enhance our educational content, JAIST has

implemented a course interchange agreement whereby each other's courses can be taken by students. After checking the syllabi of our Partner Institutes, students who wish to take courses there should discuss with your supervisor and follow the procedures. When applying, you must confirm the class schedule to choose courses that you can attend. For the first six months after enrollment, courses at JAIST have priority and you are not allowed to take courses at the partner institutes.

(1) Application fees, admission fees, and tuition fees

Students will be classified as “non-degree seeking students from a partner institute” and thus will not have to pay any fees for application, admission, or tuition except the tuition fees for the School of Graduate Studies at the Open University of Japan.

(2) Courses and credits

Courses that you can take at Partner Institutes (except the Open University of Japan) must be ones that can be beneficial for your research and that do not cover topics in the courses offered at JAIST. See the Appendix Table below. During your enrollment at JAIST, you can take a maximum of 5 courses (10 credits) including the credits obtained in courses offered by divisions other than the Division of Transdisciplinary Sciences (for courses offered at JAIST, only K/I/M/Nxxx courses in the Division of Advanced Science and Technology are applicable) and the credits recognized in Section 9. Note that the number of credits obtained at Partner Institutes that can be counted toward the degree completion requirements is as follows.

Master’s Program: A maximum of 6 credits as “Optional Courses” including the credits obtained in courses offered by divisions other than the Division of Transdisciplinary Sciences at JAIST and Kanazawa University (for courses offered at JAIST, only K/I/M/Nxxx courses in the Division of Advanced Science and Technology are applicable) and the credits recognized in Section 9

Doctoral Program: A maximum of 2 credits as “Specialized Courses” (Common Subjects) including the credits obtained in courses offered by divisions other than the Division of Transdisciplinary Sciences at JAIST and Kanazawa University (for courses offered at JAIST, only K/I/Mxxx except K/I/M1xx courses in the Division of Advanced Science and Technology are applicable).

Permission for taking courses and the way JAIST will handle the obtained credits are determined at a faculty meeting after receiving your application.

(3) Application procedure

If you wish to take courses at a Partner Institute, consult with your supervisor and then carry out the procedure within the specified period. The class schedules, syllabi, and procedures for Partner Institutes will be notified once available.

Appendix Table

Partner Institutes	Courses available
Graduate School of Natural Science and Technology, Kanazawa University	Courses taught by full-time faculty members of Partner Institutes (Laboratory work, practices, exercises, research projects, etc. are not included.) Only for master’s students
Graduate School of Engineering, Kanazawa Institute of Technology	
Graduate School of Arts and Sciences, the Open University of Japan	All the graduate school courses Only for master’s students

VI. Matters related to study and research supervision

1 Study and research supervision

In the master's program, the research supervision system consists of two faculty members; one supervisor (from JAIST) and one second supervisor (from Kanazawa University). Firstly, all students will be temporarily assigned to a laboratory of a faculty member who will be your advisor of JAIST in April in the first year (temporary assignment). Then, you will be formally assigned to a lab to determine the supervisor by late June in the first year (formal lab assignment). The second supervisor will be assigned by September in the first year.

In the doctoral program, the research supervision system consists of three faculty members; one supervisor (from JAIST) and two second supervisors (one of them is from Kanazawa University). All students will be formally assigned to a lab and the supervisor will be assigned upon matriculation after consultation with a proposed supervisor prior to enrollment. The second supervisor will be assigned in June in the first year.

This supervision system enables faculty members from both universities to provide students with collaborative research supervision which caters to individual needs of the students.

1.1 Supervisor

The supervisor plays a main role in supervising students' education and research and provides guidance on taking courses, conducting research or writing a thesis/dissertation based on the research theme of individual student while working closely with the second supervisor and other faculty members to focus on supervising their students.

Students are required to decide a research theme that integrates multiple scientific disciplines and is related to innovative science and technology under the guidance of your supervisor. Students must submit a research proposal in writing by the end of the first year based on the ideas of a research topic related to the research theme which must be confirmed by your supervisor and second supervisor. Based on the research proposal submitted, students will receive research instructions with the integration of different fields in mind. The supervisor is expected to help students summarize their research outcomes in a form of a thesis/dissertation and provide guidance related to bibliographic research and research activities.

1.2 Second supervisor

The second supervisor provides students with advice and guidance from a different perspective to that of the supervisor while working closely with the supervisor so that the research of the student will integrate multiple scientific disciplines.

With the advice and guidance of your second supervisor from a different perspective to that of your supervisor related to research theme, students will deepen the knowledge of their own research theme while learning ways of approaching your research from different fields through joint research, discussions or group study with the second supervisor and other students.

Although advice and guidance by the second supervisor from Kanazawa University should be ideally given in person, video conferencing systems such as Skype may also be used as required.

2 Research guidance at other graduate institutes

(1) Receiving guidance at other graduate institutes

Under the guidance of the supervisor, you can conduct part of the major research project at another graduate institute except with full-time faculty at Kanazawa University.

(2) Research period

A research period at other graduate institutes should be no longer than 12 months for the master's program and 18 months for the doctoral program.

(3) Procedures

If you wish to receive research guidance at another graduate institute outside JAIST, you must submit an "Entrustment of Research Guidance Outside JAIST" form at least two months prior to the start of research to Kyoumu through your supervisor.

3 Ph.D. Qualifying Examination

Those who choose Survey for Doctoral Research Plan must contact Kyoumu.

VII. Matters related to conferment of degree

The conferment of a degree will be conducted on specified dates in March or September.

1 Degree defense for the master's program

The procedures related to a defense and a final examination are laid out in the "Degree Regulations" and the "Bylaws Related to the Defense for Granting the Master's Degree" and other arrangements.

1.1 Application for conferment of degree

When you have met all the degree completion requirements except for "Research Support Courses" and wish to apply for a degree conferment, you must submit an Application for Conferment of Degree and the necessary documents to Kyoumu with your supervisor's approval. Note that those who choose Survey for Doctoral Research Plan will apply for a degree conferment after you have passed the Ph.D. qualifying examination and internal entrance examination for doctoral program at JAIST.

The deadline for submitting the Application for Conferment of Degree will be two months before the scheduled completion month. The deadline for those who wish to graduate in September will be three months before the scheduled completion month.

1.2 Submission of master's thesis or research project report

Degree applicants in Master's Thesis Project or Research Project must submit the master's thesis or research project report through the prescribed submission method on the date specified by JAIST to Kyoumu with your supervisor's approval. Note that names of the examination committee will be announced accordingly along with the thesis presentation schedule.

Those who choose Survey for Doctoral Research Plan will be notified separately regarding this matter.

1.3 Mid-term presentation and thesis presentation

In preparation for the defense of the master's thesis, the mid-term presentation on research activities will take place in the first half of the second year and the master's thesis presentation will take place in the second half of the second year. Students will receive comprehensive advice on your future research at the mid-term presentation. Also, the presentations will be made public to faculty in other divisions at both JAIST and Kanazawa University.

1.4 Master's thesis defense

The master's thesis defense will be held at JAIST. The examination committee will consist of at least three faculty members; at least two faculty members from JAIST and at least one faculty member from Kanazawa University. The evaluations and opinions given at the mid-term presentation and the thesis presentation will be taken into consideration at the defense. The thesis will also be checked against research ethics.

1.5 Conferment of degree

Based on the result of the master's thesis defense above, conferment of degree will be discussed by the liaison council established by JAIST and Kanazawa University. At the liaison council, in addition to the evaluations and opinions given at the mid-term presentation and the thesis presentation as well as the result of the master's thesis defense, students will be evaluated based on the contribution of their research to solving social problems mentioned in the "3 challenges", the level of completion of the 'Four "Forces" (Force)' and five types of competency listed in the Diploma Policy, which are 1. Competency to solve problems, 2. Expertise knowledge and practical skills, 3. Understanding and active attitude to other disciplines, 4. Language proficiency for communication and 5. Research ethics. With the evaluations at the liaison council and after deliberations at a faculty meeting, a decision will be made to confer a degree.

(Reference) Degree conferment schedule for the master's program

The standard schedule for those enrolled in April to complete the program in two years is shown below. The schedule shows approximate period for some main items. You must check the detailed information in other pages of this guide and other announcements and notifications made by JAIST.

○ **For those who selected Master’s Thesis Project/Research Project**

Month	First Year	Second Year
April	<ul style="list-style-type: none"> - Temporary lab assignment *Assignment to a faculty member (JAIST) who will be your advisor - Take Core Courses *Should be taken between Term 1-1 and Term 2-1 	
May		
June	<ul style="list-style-type: none"> - Laboratory inquiry *Also register one of the 3 challenges - Formal lab assignment *Official assignment of a supervisor (JAIST) 	
July		
August	<ul style="list-style-type: none"> - Take Transdisciplinary Session I - Course instructor inquiry for Transdisciplinary Laboratory rotation I - Second supervisor (KU) inquiry - Participate in an internship *Should be completed in the first year if possible 	- Mid-term presentation
September	<ul style="list-style-type: none"> - Official assignment of a course instructor for Transdisciplinary Laboratory rotation I - Official assignment of a second supervisor (KU) 	
October	<ul style="list-style-type: none"> - Transdisciplinary Laboratory rotation I begins *Should be completed by February in the first year 	
November		
December		
January		- Submit an application for conferment of degree
February		<ul style="list-style-type: none"> - Submit master's thesis/research project report - Thesis presentation - Defense of thesis/research project report
March	- Submit a research proposal	- Degree conferment

○ **For those who selected Survey for Doctoral Research Plan**

2 Degree defense for the doctoral program

The procedures related to a defense and a final examination are laid out in the “Degree Regulations” and the “Bylaws Related to the Defense for Granting the Doctoral Degree” and other arrangements.

2.1 Dissertation outline

After gaining the approval of all three advisors, a dissertation outline must be submitted to Kyoumu at least six months before applying for a degree.

2.2 Check sheet

Students must submit a check sheet about their level of achievement in transdisciplinary sciences to Kyoumu prior to the Preliminary defense and defense of their dissertation. The check sheet includes questions on what field of knowledge and technology are applied in relation to one’s research topic and how those two are integrated (Criteria 1 of Section 2.7) and what kind of new knowledge it generates (Criteria 2). As for Criteria 3, students will be evaluated in the final defense mentioned in Section 2.6.

2.3 Preliminary defense

Students must go through preliminary defense prior to applying for a degree. The preliminary defense is conducted by committee members from the degree awarding committee mentioned in Section 2.6 and takes place at least three months before the scheduled completion month. At the preliminary defense, guidance is given based on whether the research achievement is adequate for applying for a doctoral degree as valuable human resources of innovative science and technology in light of the educational mission of this collaborative program. Particular focus will be on whether the achievement is adequate for applying for a doctoral degree (Transdisciplinary Sciences) in light of the educational mission of this collaborative program. Following the result of the preliminary defense, further advice is given to students for obtaining a doctoral degree (Transdisciplinary Sciences) and the result is returned to the supervisor and the students for feedback. The supervisor and the second supervisors then thoroughly examine the result and give instructions to their students for finishing a dissertation. Note that students must have earned the required number of credits for degree completion (at least 13 credits) by the time of preliminary defense excluding “Seminar and Exercise II” and “Doctoral Thesis Report II”.

Those who wish to apply for a preliminary defense must submit an application for preliminary defense and other required documents to Kyoumu with the approval of their supervisor three months before your degree application. Your supervisor will carry out the procedures for holding a preliminary defense based on this request.

2.4 Application for conferment of degree

Those who have met all the degree completion requirements except for Research Support Courses and wish to apply for conferment of degree must submit an application for conferment of degree and other required documents to Kyoumu with the approval of their supervisor.

The deadline for submitting the Application for Conferment of Degree will be two months before the scheduled completion month. The deadline for those who wish to graduate in September will be three months before the scheduled completion month.

2.5 Submission of doctoral dissertation

Those who apply for conferment of degree must submit a doctoral dissertation in the designated method by the designated date by JAIST to Kyoumu with the approval of their supervisor. Note that the committee members and the schedule for the dissertation defense will be separately announced by Kyoumu.

2.6 Dissertation defense

A formal hearing and final examination will be held for the final dissertation defense. Students will first present their dissertation to faculty members and students from both universities at the formal hearing and then take the final defense and the final examination by the degree awarding committee.

The degree awarding committee consists of at least five faculty members in total including at least two members from JAIST and at least one member from Kanazawa University.

2.7 Conferment of degree

Based on the result of the dissertation defense above, conferment of degree will be discussed by the liaison council established by JAIST and Kanazawa University. At the liaison council, factors such as the result of the dissertation defense and the number of credits earned will be taken into consideration. With the result of the liaison council deliberation, each of collaborative university will hold faculty meetings for conclusion. After that, JAIST and Kanazawa University will confer a degree to students respectively. Note that dissertations will be published in a research repository of the relevant university.

The conferment of a doctoral degree will be decided based on whether or not students have completed the learning achievements specified in the Diploma Policy in light of the fact that the educational mission of this collaborative program is to progress transdisciplinary sciences, in addition to factors such as whether or not the research contributes to solving problems related to innovative science and technology and the novelty and uniqueness of the research in the field of science and engineering with the knowledge and skills of multiple scientific fields acquired. Upon the conferral of a degree, it is made obligatory to publish one's dissertation in international journals or present it at academic conferences in order to ensure a decent standard of research outcomes. In particular, the following criteria will be applied for the evaluation of "Ability to create new knowledge by integrating one's own academic discipline and others" from the Diploma Policy with the acquisition of Doctoral Degree (Transdisciplinary Sciences) in mind.

1. Does the dissertation incorporate ideas from transdisciplinary sciences and integrate the knowledge and technology of multiple fields?
2. Do the research outcomes lead to the creation of new knowledge?
3. Does the composition of the dissertation incorporate perspectives of transdisciplinary sciences?

Note that the dissertation will still be evaluated for the conferral of Doctoral Degree (Science) or Doctoral Degree (Engineering) even when it does not meet the standards for the conferral of Doctoral Degree (Transdisciplinary Sciences).

(Reference) Degree conferment schedule for the doctoral program

The standard schedule for those enrolled in April to complete a program in three years is shown below. The schedule shows approximate period for some main information. You must check the detailed information in the related pages of this guide and announcements and notifications made by JAIST.

Month	First Year	Second Year	Third Year
April	<ul style="list-style-type: none"> - Formal lab assignment *Official assignment of a supervisor (JAIST) - Take Specialized Courses *Should be taken between Term 1-1 and Term 2-1 		
May	<ul style="list-style-type: none"> - Second supervisors inquiry (KU/JAIST) *Also register one of the 3 challenges 		
June	<ul style="list-style-type: none"> - Official assignment of second supervisors (KU/JAIST) 		
July	<ul style="list-style-type: none"> - Course instructor (KU) inquiry for Transdisciplinary Laboratory rotation II *Course instructor will be officially assigned by September in the first year 		<ul style="list-style-type: none"> - Submit dissertation outline
August	<ul style="list-style-type: none"> - Participate in Research Challenge / International Internship *Should be completed by September in the second year 		
September	<ul style="list-style-type: none"> - Transdisciplinary Laboratory rotation II begins *Should be completed by September in the second year 		
October	<ul style="list-style-type: none"> - Take Transdisciplinary Session II *Should be completed by March in the second year 		<ul style="list-style-type: none"> - Submit an application for preliminary defense

VIII. Education and Training Programs offered by Global Communication Center

1 Outline of Global Communication Center

JAIST has one of the highest percentages of international students of any national university in Japan. Global Communication Center operates education and training programs to make the most of this international environment in academia.

2 Educational Programs of Global Communication Center

Global Communication Center offers English language education courses (Exxx courses) for non-native English speaking students, Japanese language education courses (Jxxx courses) for international students, and global courses (Gxxx courses) for all students to study world issues. For details on each class, please refer to the Class Schedule and Syllabus.

3 Global Communication Center Training Programs

Global Communication Center offers a variety of training programs. Please check the schedule of the training program in the campus notice.

3.1 Writing Lab

Students who wish to present their research results in English will be given individual instruction.

3.2 JAIST-Nomi City Collaborative Japanese Language Course

Based on the "Agreement on Cooperation between Academia and Government" signed between JAIST and Nomi City on March 27, 2006, Japanese language classes will be held for international students, international researchers, international faculty members, and their families who wish to learn Japanese.

(1) Japanese Language Classes

Nomi City International Association staff, citizen supporters, and assistant students will hold Japanese language classes on the JAIST campus to teach Japanese in a practical manner. The classes will be held once a week for 90 minutes, and will be held throughout the year except for summer vacation and year-end and New Year vacations.

(2) Japanese Culture Experience

As an opportunity for learners to directly experience Japanese society and culture, we offer Japanese culture classes such as tours of public facilities and institutions in Nomi City (irregular).

IX. Systems in place

1 Extended study period for completion

Students may be granted extension of your study period when you face difficulty in completing the degree within the standard study period due to fair reasons related to their work or some personal affairs. Students who wish to extend study period must check the JAIST website (Education → Academic Procedures → Extended Study Period for Completion) and contact Kyoumu to apply by the designated deadline.

2 Progression within JAIST

Students who have completed a master's program at JAIST and wish to continue onto the doctoral program must check the Application Guide or the JAIST website (Education → Application Guide for Internal Entrance Examination for Doctoral Program) to apply for the Internal Entrance Examination.

3 Academic rules

Check the website (<https://education.jourekun.jp/jaist/>) in regards to the details of the general academic rules, the regulations and bylaws on degree completion, course taking, collaborative education and research facility courses, and matters relevant to conferment of Master's and Doctoral degree.

Courses and Class Schedules (JAIST)

Courses and Class Schedules (JAIST)

1 Overview (JAIST)

Each course has its course number which consists of an alphabet (K=Knowledge Science course group, I=Information Science course group, M=Materials Science course group, and the same applies to other alphabets.), indicating the school of the course instructor, followed by three-digit numbers. The letter E at the end of the course number indicates that the course is conducted in English (K/I/MxxxE). Some courses at JAIST are offered both in Japanese and English in the same academic year.

1.1 Courses

The tables in Section 2 below list the courses offered by the Division of Transdisciplinary Sciences at JAIST with information of language, terms and instructors. The number of credits per course for Specialized Courses is 2 and the exceptions are indicated in the "Note" row. Check the syllabi for details about each course.

The J, E, EJ codes in the language row indicate the language of instruction: J indicates the course is conducted in Japanese; E, English; EJ in both English and Japanese. If a course has multiple instructors, either "," or "•" are used between the names. "," indicates each instructor teaches the course and "•" indicates the course is taught by all the instructors in turns (course in relay). See the faculty profiles page on the web for more information about the course instructors (JAIST top page → Research → Faculty Profiles).

1.2 Class schedules

The tables in Section 3 below show the class schedules offered by the Division of Transdisciplinary Sciences at JAIST. At JAIST, each course is held twice a week except for intensive courses and the courses with irregular timetables. K·I·Mxxx courses are held in the morning (1st and 2nd period) and 4th period of Tuesday and Thursday. 3rd period is for the tutorial hours for the 1st period class on that day. Students can ask questions or discuss with the instructor during the tutorial hours and the time can be used for exercises, supplemental instruction etc. Note that K·I·Mxxx Courses held at 4th period of Tuesday and Thursday have no tutorial hours. Sxxx courses are held at 4-5th period of Fridays. The Examination Terms ordinary come after the end of each lecture term, however the examinations of intensive courses are exceptionally conducted after finishing all the lectures in general. Class schedules with the assigned rooms will be displayed on the bulletin board next to the automatic certificate issuing machine and on the JAIST website (Division of Transdisciplinary Sciences, Graduate School of Advanced Science and Technology (hyperlink button) → For Student → Class Schedule (JAIST)). You must check the schedule before the start of classes each term.

This class schedule includes courses offered by the Division of Advanced Science and Technology. The courses offered in the master's program of the Division of Transdisciplinary Sciences are indicated by ◆ next to the name of the course instructor and the courses offered in the doctoral program of the Division of Transdisciplinary Sciences are indicated by □ next to the name of the course instructor. Check the syllabi for details about each course offered by the Division of Advanced Science and Technology. Note that courses offered in the master's program of the Division of Transdisciplinary Sciences at JAIST are held mainly on Tuesdays and Thursdays.

2 Courses for 2022-2023 (JAIST)

2 – 1 For the Master's Program

○ Core Courses

Course Number	Course Title	Language	Course Term		Instructor(s)	Note
			1-1 1-2	2-1 2-2		
S101	Innovation Theory and Methodology for Social Competencies	J E	1-1	2-1	KOHDA et al.	1 credit, Required elective course
S102	Innovation Theory and Methodology for Creativity	J E	1-1	2-1	KOHDA et al.	1 credit, Required elective course
I119	Statistics for Data Analytics	J	1-1		UNOKI·KIDANI	2 credits, Required elective course

Note : S101 and S102 are simultaneously offered in both Japanese and English (in separate rooms).

○ Transdisciplinary Experience Courses

Course Number	Course Title	Language	Course Term		Instructor(s)	Note
			1-1 1-2	2-1 2-2		
T001	Transdisciplinary Session I	J	Summer		Faculties at Division of Transdisciplinary Sciences (KU and JAIST)	2 credits, Required course
T004	Transdisciplinary Laboratory Rotation Ia (JAIST)	/	/	/	Faculties, et al. at Division of Transdisciplinary Sciences (JAIST)	1 credit, Required elective course
T005	Transdisciplinary Laboratory Rotation Ib (JAIST)	/	/	/		1 credit, Required elective course

Note : For T001, 1 out of 2 credits will be counted as earned at Kanazawa University(KU).

○ Social Implementation Courses

Course Number	Course Title	Language	Course Term		Instructor(s)	Note
			1-1 1-2	2-1 2-2		
T011	Industrial Internship a (JAIST)	/	/	/	Supervisor	1 credit, Required elective course
T012	Industrial Internship b (JAIST)	/	/	/	Supervisor	2 credits, Required elective course
T013	Research Internship a (JAIST)	/	/	/	Supervisor	1 credit, Required elective course
T014	Research Internship b (JAIST)	/	/	/	Supervisor	2 credits, Required elective course

○ Specialized Courses

•Common Subjects

I443	Foundation of Software Verification	J		2-1	AOKI·KAWAI	Offered in alternate years

Note : * indicates the course is not offered in the 2022 academic year.

○ Research Support Courses

Course Number	Course Title	Language	Course Term		Instructor(s)	Note
			1-1 1-2	2-1 2-2		
T008	Master Thesis Report I (JAIST)	/	/	/	Supervisor	6 credits, Required elective course
T009	Research Project (JAIST)	/	/	/	Supervisor	2 credits, Required elective course
T010	Research Planning for Ph.D Course (JAIST)	/	/	/	Supervisor	2 credits, Required elective course

2 – 2 For the Doctoral Program

○ Transdisciplinary Experience Courses

Course Number	Course Title	Language	Course Term		Instructor(s)	Note
			1-1 1-2	2-1 2-2		
T051	Transdisciplinary Session II	J			Faculties at Division of Transdisciplinary Sciences (KU and JAIST)	Offered as necessary, 2 credits, Required course
T053	Transdisciplinary Laboratory Rotation II (JAIST)	/	/	/	Faculties, et al. at Division of Transdisciplinary Sciences (JAIST)	1 credit

Note 1: For T051, 1 out of 2 credits will be counted as earned at Kanazawa University(KU).

Note 2: Students completing T052 (Transdisciplinary Laboratory Rotation II (KU)) are eligible to take T053.

○ Social Implementation Courses

Course Number	Course Title	Language	Course Term		Instructor(s)	Note
			1-1 1-2	2-1 2-2		
T054	Overseas Research Challenge A(JAIST)	/	/	/	Supervisor	1 credit, Required elective course
T055	Overseas Research Challenge B(JAIST)	/	/	/	Supervisor	2 credits, Required elective course
T056	Overseas Research Challenge C(JAIST)	/	/	/	Supervisor	4 credits, Required elective course
T057	International Internship(JAIST)	/	/	/	Supervisor	1 credit, Required elective course

○ Specialized Courses

• Common Subjects

Course Number	Course Title	Language	Course Term		Instructor(s)	Note
			1-1 1-2	2-1 2-2		
S503	Innovation Theory and Methodology for Total Capability Development	J E	1-1	2-1	KOHDA et al.	1 credit, Required elective course
K485	Public Economics for Community Management	J	Summer		YAMAMOTO T·SHIN	
K619	Advanced Data Analytics	E		2-2	Dam·GOKON·Nguyen L	Offered in alternate years
I119	Statistics for Data Analytics II	J	1-1		UNOKI·KIDANI	

Note 1: S503 is simultaneously offered in both Japanese and English (in separate rooms).

Note 2: I119 is strongly recommended to the students who have never studied statistics etc. before.
However, its credits can not be counted for degree completion requirements.

• Life Science Subjects

Course Number	Course Title	Language	Course Term		Instructor(s)	Note
			1-1 1-2	2-1 2-2		
M423	Functional Protein Device	J	1-2		HIRATSUKA	
M615	Advanced Biofunctions	E	※	※	TAKAGI M·TAKAMURA YUZURU	Offered in alternate years
M616	Advanced Biomaterials	E	※	※	HIRATSUKA·TSUTSUI H·HAMADA	Offered in alternate years
M622	Advanced Biomolecular Science	E	1-2		OHKI·YAMAGUCHI T	Offered in alternate years

Note: * indicates the course is not offered in the 2022 academic year.

• Materials Science Subjects

Course Number	Course Title	Language	Course Term		Instructor(s)	Note
			1-1 1-2	2-1 2-2		
M413	Functional Nanomaterials	E		2-1	MAENOSONO·NAGAO Y· YAMAMOTO Y·NISHIMURA S	
M421	Electronics	J		2-1	SUZUKI T	
M424	Polymer Chemistry II	J		2-1	MATSUMURA·YAMAGUCHI MASAYUKI·KIDA	
M425	Analytical Mechanics	E		2-1	Ho	
M612	Optical Properties of Solids	E	1-2		MIZUTANI·MURATA·KOYANO	Offered in alternate years
M614	Advanced Device Physics	E	※	※	OHDAIRA·TOKUMITSU	Offered in alternate years
M617	Molecular and Functionality Design of Polymers	E	1-1		KANEKO T·OKEYOSHI· SHINOHARA·YAMAGUCHI MASAYUKI	Offered in alternate years
M618	Materials Design	E	※	※	MATSUMURA·MIYAKO·Rajan· Misra	Offered in alternate years
M619	Materials Morphology	E	1-2 intensive		MATSUMI·TANIIKE·Badam· Kabeer	Offered in alternate years
M620	Electronic Properties of Condensed Matter	E	※	※	OSHIMA·KOYANO·An	Offered in alternate years

Note 1: * indicates the course is not offered in the 2022 academic year.

Note 2: The class schedule of M619 will be irregular. Check the class schedule for detailed schedule.

• Social Systems Science Subjects

Course Number	Course Title	Language	Course Term		Instructor(s)	Note
			1-1 1-2	2-1 2-2		
K412	Anthropology of Knowledge	J	1-1		ITO	
K469	Knowledge Creation Support Media	J	1-1		NISHIMOTO	
K613	Social-Technical Complex Systems	E	※	※	Huynh	Offered in alternate years
K626	Advanced Topics in Media Design	E		2-1	NISHIMOTO · NISHIMURA T · MIYATA K · KANAI · GOKON · SATO T · HIDAKA · Lam · Xie · TAKASHIMA · TORII · UTSUMI	Offered in alternate years
I441	Advanced Computer Networks	J	※	※	SHINODA	Offered in alternate years
I448	Distance Learning System	J	※	※	HASEGAWA · OTA	Offered in alternate years
I470	Theory of Advanced Algorithms	J		2-1	UEHARA	Offered in alternate years
I615	Robotics and Computer Vision	E	※	※	Chong · Elibol	Offered in alternate years
I645	Human Perceptual Systems and its Models	E		2-2	UNOKI	Offered in alternate years
I649	Advanced Wireless Networks	E	1-2		Lim · He	Offered in alternate years

Note: * indicates the course is not offered in the 2022 academic year.

○ Research Support Courses

Course Number	Course Title	Language	Course Term		Instructor(s)	Note
			1-1 1-2	2-1 2-2		
T059	Doctor Thesis Report II (JAIST)	/	/	/	Supervisor	6 credits, Required course

3 Class schedules for 2022-2023 (JAIST)

Term 1-1: Class Term (April 12 – June 3) 1st - 3rd Examination Term (June 6 – June 8)

※ ◆ indicates that the course is offered in Master's program of the Transdisciplinary Science Division. □ indicates it's for Doctoral program.

	1 9:00 – 10:40	2 10:50 – 12:30	3
Mon.	K211E Methodology for the Social Sciences (Kim)◆ K470 Introduction to Knowledge Creation (YUIZONO) I120 Fundamentals of Logic and Mathematics (ISHIHARA) I237 Formal Languages and Automata (TOJO)◆ I483 Smart Embedded System Development (NAKATA) M245 Mathematics for Condensed Matter Science and Technology (An)◆ M285E Bioscience and Biotechnology (YAMAGUCHI T·HAMADA·FUJIMOTO·TSUTSUI H·HOHSAKA)	K228 Introduction to Knowledge Science (HASHIMOTO·Dam) I111 Algorithms and Data Structures (IKEDA K·Hsueh)◆ I115 Digital Logic and Computer Design (KANEKO M·TANAKA) I232E Information Theory (Kurkoski·Liu) M221 Organic Chemistry (MATSUMI)◆	Tutorial Hours (13 : 30 – 15 : 10)
Tue.	K111 Introduction to Management (SHIRAHADA) K211 Methodology for the Social Sciences (SHIKIDA·SATO T·TAKASHIMA·TORII)◆ K471 Media Creation (MIYATA K·Xie)◆ I116E Fundamentals of Programming (HIROKAWA·Elibol)◆ I212 Analysis for Information Science (KOTANI)◆ I214 System Optimization (KANEKO M·HIRAISHI)◆ I235 Game Informatics (IKEDA K·IIDA·Hsueh)◆ M113 Introduction to Bioscience (TAKAGI M)◆ M284E Solid State Physics and its Application to Electronics II (OSHIMA·SUZUKI T·An)	K412 Anthropology of Knowledge (ITO)□ K469 Knowledge Creation Support Media (NISHIMOTO)□ I119 Statistics for Data Analytics (UNOKI·KIDANI)◆□ I211E Mathematical Logic (ISHIHARA·KAWAI)◆ I218 Computer Architecture (INOBUCHI)◆ I233 Operating Systems (SHINODA·UDA)◆ M111 Introduction to Physics (HORITA)◆ M213 Electromagnetic Theory (TOMITORI)◆ M617E Molecular and Functionality Design of Polymers (KANEKO T·OKEYOSHI·SHINOHARA·YAMAGUCHI·MASAYUKI)□	
Wed.	K125 Introduction to Systems Development for Knowledge Science Experiment / Survey (TAKASHIMA) I112 Basics of Computer Systems (HONGO) I114 Fundamental Mathematics for Information Science (TOMITA) I225E Statistical Signal Processing (MAEZONO·NAKANO)◆ M112 Introduction to Chemistry (TANIIKE·MIYAKO·WADA)◆ M251 Chemistry of Catalyst and Catalysis (NISHIMURA S)◆ M273EJ Mechatronics (Ho)◆	K211E Methodology for the Social Sciences (Kim)◆ K470 Introduction to Knowledge Creation (YUIZONO) I120 Fundamentals of Logic and Mathematics (ISHIHARA) I237 Formal Languages and Automata (TOJO)◆ I483 Smart Embedded System Development (NAKATA) M245 Mathematics for Condensed Matter Science and Technology (An)◆ M285E Bioscience and Biotechnology (YAMAGUCHI T·HAMADA·FUJIMOTO·TSUTSUI H·HOHSAKA)	
Thu.	K412 Anthropology of Knowledge (ITO)□ K469 Knowledge Creation Support Media (NISHIMOTO)□ I119 Statistics for Data Analytics (UNOKI·KIDANI)◆□ I211E Mathematical Logic (ISHIHARA·KAWAI)◆ I218 Computer Architecture (INOBUCHI)◆ I233 Operating Systems (SHINODA·UDA)◆ M111 Introduction to Physics (HORITA)◆ M213 Electromagnetic Theory (TOMITORI)◆ M617E Molecular and Functionality Design of Polymers (KANEKO T·OKEYOSHI·SHINOHARA·YAMAGUCHI·MASAYUKI)□	K111 Introduction to Management (SHIRAHADA) K211 Methodology for the Social Sciences (SHIKIDA·SATO T·TAKASHIMA·TORII)◆ K471 Media Creation (MIYATA K·Xie)◆ I116E Fundamentals of Programming (HIROKAWA·Elibol)◆ I212 Analysis for Information Science (KOTANI)◆ I214 System Optimization (KANEKO M·HIRAISHI)◆ I235 Game Informatics (IKEDA K·IIDA·Hsueh)◆ M113 Introduction to Bioscience (TAKAGI M)◆ M284E Solid State Physics and its Application to Electronics II (OSHIMA·SUZUKI T·An)	
Fri.	K228 Introduction to Knowledge Science (HASHIMOTO·Dam) I111 Algorithms and Data Structures (IKEDA K·Hsueh)◆ I115 Digital Logic and Computer Design (KANEKO M·TANAKA) I232E Information Theory (Kurkoski·Liu) M221 Organic Chemistry (MATSUMI)◆	K125 Introduction to Systems Development for Knowledge Science Experiment / Survey (TAKASHIMA) I112 Basics of Computer Systems (HONGO) I114 Fundamental Mathematics for Information Science (TOMITA) I225E Statistical Signal Processing (MAEZONO·NAKANO)◆ M112 Introduction to Chemistry (TANIIKE·MIYAKO·WADA)◆ M251 Chemistry of Catalyst and Catalysis (NISHIMURA S)◆ M273EJ Mechatronics (Ho)◆	

Irregular class schedule:

I486S Multi-Party Computation (FUJISAKI E)
5th period of every Tuesday in Terms 1-1 and 1-2

NOTE:

The class schedule of the courses with the assigned lecture rooms will be posted on the notice board next to the automatic certificate issuing machine before each term begins. It can also be viewed on the JAIST website (Education → Taking Courses → Class Schedule).

"I119 Statistics for Data Analytics" will be treated as "I119 Statistics for Data Analytics II" in Doctoral program of the Transdisciplinary Science Division.

Class schedules for 2022-2023 (JAIST)

Term 1-1: Class Term (April 12 – June 3) 4th - 5th Examination Term (June 6 – June 8)

※ ◆ indicates that the course is offered in Master's program of the Transdisciplinary Science Division. □ indicates it's for Doctoral program.

I213E Discrete Signal Processing (Sakti)◆ I235E Game Informatics (IKEDA K·Khalid·Hsueh)◆ I471 Study on Practical Architectures for IoT Systems (SUZUKI M) M212 Statistical Mechanics (KOYANO)◆	K114E Introduction to Social Research Methods (Javed) I219E Software Design Methodology (AOKI·ISHII)◆ I468 Modeling of Dynamics (MAEZONO)◆ I645E Human Perceptual Systems and its Models (UNOKI)□ M420 Solid State Physics II (AKABORI)◆	
Wed.	K411E Theory of Knowledge Management (Zelaya·Kim) K414 Complex Systems Analysis (HASHIMOTO·KUROKAWA) I239E Machine Learning (Nguyen L·Racharak) I416 Parallel Processing (INOBUCHI) I432 Theory of Discrete-State Systems (HIRAISHI) M283E Biofunction and Organization (TAKAGI M·KURISAWA·TAKAMURA YUZURU·OHKI)	K619E Advanced Data Analytics (Dam·GOKON·Nguyen L)□ I218E Computer Architecture (TANAKA)◆ I450 Network Design Laboratory (Lim·Javaid) M282E New Materials Design and Synthesis (OKEYOSHI·YAMAMOTO Y·Badam·Chammingkwan)	
Thu.	K114E Introduction to Social Research Methods (Javed) I219E Software Design Methodology (AOKI·ISHII)◆ I468 Modeling of Dynamics (MAEZONO)◆ I645E Human Perceptual Systems and its Models (UNOKI)□ M420 Solid State Physics II (AKABORI)◆	I213E Discrete Signal Processing (Sakti)◆ I235E Game Informatics (IKEDA K·Khalid·Hsueh)◆ I471 Study on Practical Architectures for IoT Systems (SUZUKI M) M212 Statistical Mechanics (KOYANO)◆	
Fri.	K213E Methodology for Systems Science (Huynh·Lam) I214E System Optimization (Kurkoski)◆ I482 Software Process Design for Highly Dependable Embedded Systems (SUZUKI M·AOKI) M281E Solid State Physics and its Application to Electronics I (MURATA·An·UEDA)	K411E Theory of Knowledge Management (Zelaya·Kim) K414 Complex Systems Analysis (HASHIMOTO·KUROKAWA) I239E Machine Learning (Nguyen L·Racharak) I416 Parallel Processing (INOBUCHI) I432 Theory of Discrete-State Systems (HIRAISHI) M283E Biofunction and Organization (TAKAGI M·KURISAWA·TAKAMURA YUZURU·OHKI)	

Irregular class schedule:

- I466 Introduction to International Standardization (ONISHI et al.)
5th period of every Friday in Terms 2-1 and 2-2
- I466S Advanced Information Security Theory and Application (MIYAJI·Wang Y)
6:30 p.m. - 8:00 p.m. of every Wednesday in Terms 2-1 and 2-2

NOTE:

The class schedule of the courses with the assigned lecture rooms will be posted on the notice board next to the automatic certificate issuing machine before each term begins. It can also be viewed on the JAIST website (Education → Taking Courses → Class Schedule).

Class schedules for 2022-2023 (JAIST)

**Term 2-2: Class Term (December 8 – February 7) 4th - 5th
Examination Term (February 8, February 9)**

NOTE:
December 23 follows the Monday schedule.
January 5 follows the Wednesday schedule.

※ ◆ indicates that the course is offered in Master's program of the Transdisciplinary Science Division. □ indicates it's for Doctoral program.

	4 15:20 – 17:00	5 17:10 – 18:50
Mon.	E213 Scientific Discussions 1 (Holden) J012 Introductory Technical Japanese 2 (TSUTSUI M) J112 Basic Technical Japanese 2 (YAMAGUCHI MICHIO) G213E Social Problems in Modern Japan (MOTOYAMA)	
Tue.	E212 Presenting Research (Holden) J212 Intermediate Technical Japanese 2 (TSUTSUI M) M414 Device Physics (TOKUMITSU)◆ M415 Medical Biomaterials (TSUKAHARA)◆	
Wed.	E213 Scientific Discussions 1 (Holden) J012 Introductory Technical Japanese 2 (TSUTSUI M) J112 Basic Technical Japanese 2 (YAMAGUCHI MICHIO) G213E Social Problems in Modern Japan (MOTOYAMA)	
Thu.	E212 Presenting Research (Holden) J212 Intermediate Technical Japanese 2 (TSUTSUI M) M414 Device Physics (TOKUMITSU)◆ M415 Medical Biomaterials (TSUKAHARA)◆	
Fri.		I466 Introduction to International Standardization (ONISHI et al.)

4 Time Table of the Examination Term for 2022-2023 (JAIST)

【Term1-1】 Examination shedule for the courses held at the following period is below.

	1st period 9:00-10:40	2nd period 10:50-12:30	3rd period 13:30-15:10	4th period 15:20-17:00	5th period 17:10-18:50
June 6(Mon.)	Monday 1st period	Monday 2nd period	Wednesday 1st period	Monday 4th period	Monday 5th period
June 7(Tue.)	Tuesday 1st period	Tuesday 2nd period		Tuesday 4th period	Tuesday 5th period
June 8(Wed.)	The last class of S102 and S503				

【Term1-2】 Examination shedule for the courses held at the following period is below.

	1st period 9:00-10:40	2nd period 10:50-12:30	3rd period 13:30-15:10	4th period 15:20-17:00	5th period 17:10-18:50
August 2(Tue.)	Tuesday 1st period	Tuesday 2nd period		Tuesday 4th period	Tuesday 5th period
August 3(Wed.)	Wednesday 1st period	Monday 1st period	Monday 2nd period	Monday 4th period	Monday 5th period

【Term2-1】 Examination shedule for the courses held at the following period is below.

	1st period 9:00-10:40	2nd period 10:50-12:30	3rd period 13:30-15:10	4th period 15:20-17:00	5th period 17:10-18:50
December 2(Fri.)	The last class of S102 and S503				
December 5(Mon.)	Monday 1st period	Monday 2nd period	Wednesday 1st period	Monday 4th period	Monday 5th period
December 6(Tue.)	Tuesday 1st period	Tuesday 2nd period		Tuesday 4th period	Tuesday 5th period

【Term2-2】 Examination shedule for the courses held at the following period is below.

	1st period 9:00-10:40	2nd period 10:50-12:30	3rd period 13:30-15:10	4th period 15:20-17:00	5th period 17:10-18:50
February 8(Wed.)	Wednesday 1st period	Monday 1st period	Monday 2nd period	Monday 4th period	Monday 5th period
February 9(Thu.)	Tuesday 2nd period	Tuesday 1st period		Tuesday 4th period	Tuesday 5th period

**Courses and Class Schedules
(Kanazawa University)**

Courses and Class Schedules (Kanazawa University)

1 Overview (Kanazawa University)

At Kanazawa University, each class is 90-minute long, and a class meets 15 times in one quarter with one class a week to complete a course bearing 2 credits. The examinations are held in the last week of each quarter.

Courses offered at Kanazawa University, in principle, should be taken at Kanazawa University. However, some courses may be offered remotely using a video conferencing system as required. More details about this matter will be announced separately.

1.1 Courses and class schedules

The tables in Section 2-1 below list the course titles and instructor's names in charge offered in the master's program of the Division of Transdisciplinary Sciences at Kanazawa University. In general, 1 credit will be granted for each Specialized course in master's program. Otherwise, the number of credits is indicated the "Note" row. The tables in Section 2-2 below list the Courses (course title, instructor, etc.) offered in the doctoral program of the Division of Transdisciplinary Sciences at Kanazawa University. 2 credits will be granted for each Specialized course in doctoral program, the exceptions are indicated in the "Note" row. The course term of each class will be announced separately.

Check the syllabi for details about each course.

The course titles and class schedules will be published on the KU website (Kanazawa University Graduate School of Frontier Science Initiative → For Student → Division of Transdisciplinary Sciences → Class Schedule).

2 Courses for 2022-2023 (Kanazawa University)

2 – 1 For the Master's Program

○ Core Courses

Course Number	Course Title	Instructor(s)	Note
15003	Research Ethics	KAKIUCHI	1 credit, Required elective course
15008	Advanced Science and Technology in the Next Generation	YONEDA T et al.	1 credit, Required elective course
15009	Innovation Methodology	To be announced	1 credit, Required elective course
15010	Transdisciplinary Exportations	Faculties, et al. at Division of Transdisciplinary Sciences (KU)	1 credit, Required elective course
15011	Management of Technology	To be announced	1 credit, Required elective course
15014	MoT as for Disruptive Innovation	MATSUSHIMA	1 credit, Required elective course
15015	Smart Science and Technology for Innovation	NISHIYAMA et al.	1 credit, Required elective course
15016	Innovation in Healthcare	To be announced	1 credit, Required elective course
15017	Human and Social Challenges	To be announced	1 credit, Required elective course
15005	Introduction to Practical Data Analysis and Statistics a	SAGAE	1 credit, Required elective course
15007	Data Science in Society 5.0	YAMANE et al.	1 credit, Required elective course

Note:15010 can be only taken by Kanazawa University students.

○ Transdisciplinary Experience Courses

Course Number	Course Title	Instructor(s)	Note
T002	Transdisciplinary Laboratory Rotation Ia (KU)	Faculties, et al. at Division of Transdisciplinary Sciences (KU)	1 credit, Required elective course
T003	Transdisciplinary Laboratory Rotation Ib (KU)		1 credit, Required elective course

○ **Specialized Courses**

• **Common Subjects**

Course Number	Course Title	Instructor(s)	Note
15310	Data Mining a	NAMBO	
15311	Data Mining b	NAMBO	
15312	Information Processing in Video Systems a	IMAMURA	
15313	Information Processing in Video Systems b	IMAMURA	
15316	Array Signal Processing a	MIYOSHI	
15317	Array Signal Processing b	MIYOSHI	
15318	Advanced Communication Engineering a	KASAHARA	
15319	Advanced Communication Engineering b	KASAHARA	
15320	Fundamentals of Nanoscale Measurements and Control A	FUKUMA	
15321	Fundamentals of Nanoscale Measurements and Control B	TAKAHASHI	
15322	Theory of Artificial Intelligence Software A	YAMANE	
15323	Theory of Artificial Intelligence Software B	YAMANE	

• **Life Science Subjects**

Course Number	Course Title	Instructor(s)	Note
15412	Bioscience of Cancer Ia	OSHIMA et al.	
15413	Bioscience of Cancer Ib	OSHIMA et al.	
15414	Bioscience of Cancer IIa	HIRAO et al.	
15415	Bioscience of Cancer IIb	HIRAO et al.	

Course Number	Course Title	Instructor(s)	Note
15416	Introduction to Dynamics of Biomolecules a	KODERA et al.	
15417	Introduction to Dynamics of Biomolecules b	KODERA et al.	
15418	Introduction to Molecular and Biophysics a	FUJITAKE et al.	
15419	Introduction to Molecular and Biophysics b	FUJITAKE et al.	
15422	Introduction to Discovering Molecular Probes a	OGAWA et al.	
15423	Introduction to Discovering Molecular Probes b	KUNISHIMA et al.	
15424	Human Body: Structures a	HORI et al.	
15425	Human Body: Structures b	HORI et al.	
15408	Human Body: Functions	MIEDA et al.	2 credits, Required elective course
15409	Human Body: Diseases	HARADA et al.	2 credits, Required elective course
15427	Pathogenic Microbiology, Infectious Diseases, and Microbiome Science a	OKAMOTO	
15428	Pathogenic Microbiology, Infectious Diseases, and Microbiome Science b	OKAMOTO	

•Materials Science Subjects

Course Number	Course Title	Instructor(s)	Note
15526	Optical Engineering a	IIYAMA	
15527	Optical Engineering b	IIYAMA	
15504	Introduction of Energy and Environmental Program	ASAKAWA et al.	
15505	Introduction of Material Program	YAMAGISHI et al.	
15506	Advanced study of solar cell technology I	TAIMA et al.	2 credits, Required elective course

Course Number	Course Title	Instructor(s)	Note
15516	Advanced solid state physical chemistry Ia	MIZUNO	
15517	Advanced solid state physical chemistry Ib	MIZUNO	
15508	Synthetic Chemistry of Polymeric Materials	MAEDA et al.	2 credits, Required elective course
15509	Functional Polymer Materials	YAMAGISHI et al.	2 credits, Required elective course
15518	Advanced bio-refinery engineering Ia	NINOMIYA et al.	
15519	Advanced bio-refinery engineering Ib	NINOMIYA et al.	
15520	Advanced Surface and Interface Engineering Ia	TOKUDA	
15521	Advanced Surface and Interface Engineering Ib	TOKUDA	
15522	Devices Process Engineering a	KAWAE	
15523	Devices Process Engineering b	KAWAE	
15528	Fundamentals of Materials Characterization a	INOKUMA	
15529	Separation and Purification Technology A	KODAMA	
15530	Separation and Purification Technology B	KODAMA	

•Social Systems Science Subjects

Course Number	Course Title	Instructor(s)	Note
15608	Science in Archaeology a	KAWAI et al.	
15609	Science in Archaeology b	KAWAI et al.	
15610	Elementary Theories of Transdisciplinary Science on Cognition and Behavior a	KOJIMA	
15611	Elementary Theories of Transdisciplinary Science on Cognition and Behavior b	KOJIMA	

Course Number	Course Title	Instructor(s)	Note
15612	Introduction to comparative cognition a	TANIUCHI	
15613	Introduction to comparative cognition b	TANIUCHI	
15614	Introduction of Exercise Physiology a	MASUDA	
15615	Introduction of Exercise Physiology b	MASUDA	
15618	Clinical Neuropsychology Ia	MATSUI	
15619	Clinical Neuropsychology Ib	MATSUI	
15620	Introduction to Cultural Resource Studies a	MORI et al.	
15621	Introduction to Cultural Resource Studies b	MORI et al.	
15622	Intelligent Mobile Robot Ia	SEKI et al.	
15623	Intelligent Mobile Robot Ib	SUGANUMA et al.	
15624	Biomechanical Engineering Ia	SAKAMOTO	
15625	Biomechanical Engineering Ib	SAKAMOTO	
15626	History of Technology and Society	TANIGAWA	
15627	Computer Vision A	YONEDA K	
15628	Computer Vision B	YONEDA K	

○ **Research Support Courses**

Course Number	Course Title	Instructor(s)	Note
T007	Seminar and Exercise I (KU)	Second supervisor	2 credits, Required course

2 – 2 For the Doctoral Program

○ Transdisciplinary Experience Courses

Course Number	Course Title	Instructor(s)	Note
T052	Transdisciplinary Laboratory Rotation II (KU)	Faculties, et al. at Division of Transdisciplinary Sciences (KU)	1 credit, Required course

○ Specialized Courses

•Common Subjects

Course Number	Course Title	Instructor(s)	Note
17306	Research Ethics for Next Generation	To be announced	1 credit, Required elective course
17307	Essential Practice for Next Generation	To be announced	1 credit, Required elective course
17308	Innovation Development for Next Generation	MATSUSHIMA et al.	1 credit, Required elective course
17309	Introduction to Practical Data Analysis and Statistics a	SAGAE	1 credit, Required elective course
17310	Introduction to Practical Data Analysis and Statistics b	YAMANE et al.	1 credit, Required elective course
17303	Advanced Data Mining	NAMBO	
17304	Advanced Bioinformatics	SATOU K	
17305	Management Science	SAGAE	

Note 1: 17307 and 17308 can be only taken by Kanazawa University students.

Note 2: 17309 and 17310 is strongly recommended to the students who have never studied statistics etc. before. However, its credits can not be counted for degree completion requirements.

•Life Science Subjects

Course Number	Course Title	Instructor(s)	Note
17401	Integrated Life Sciences	SUZUKI T et al.	
17402	Structure and dynamics of biological molecules	SHIBATA	
17403	Nanobiology	KODERA	
17404	Molecular and Cellular Biology	Wong et al.	

Course Number	Course Title	Instructor(s)	Note
17405	Molecular Microbiology	TAOKA	
17406	Chronic Care/Wound Management: Lecture	OKUWA et al.	

•Materials Science Subjects

Course Number	Course Title	Instructor(s)	Note
17501	Advanced study of solar cell technology II	TAIMA	
17502	Advanced solid state physical chemistry II	MIZUNO	
17503	Polymer and Material Chemistry	NISHIMURA	
17504	Advanced bio-refinery engineering II	NINOMIYA et al.	
17505	Advanced Surface and Interface Engineering II	TOKUDA	
17506	Oxide Device Processing	KAWAE	
17507	Oxide Electronics	MORIMOTO	
17508	Thin Film Electronics	INOKUMA	
17509	Environmental Load Reduction Engineering	KODAMA	

•Social Systems Science Subjects

Course Number	Course Title	Instructor(s)	Note
17601	Intelligent Mobile Robot II	SUGANUMA	
17602	Biomechanical Engineering II	SAKAMOTO	
17603	Measurement systems	IYAMA	
17604	Digital Video Processing	IMAMURA	
17606	Verification of Distributed, Parallel and Real-Time Systems	YAMANE	

Course Number	Course Title	Instructor(s)	Note
17607	Theories of Transdisciplinary Science on Cognition and Behavior I	KOJIMA	
17608	Theories of Transdisciplinary Science on Cognition and Behavior II	KOJIMA	
17609	Advanced Exercise Physiology	MASUDA	
17610	Psychology of Learning and Behavior	TANIUCHI	
17611	Interdisciplinary Studies in Archaeology and Cultural Heritage Studies I	KAWAI	
17612	Interdisciplinary Studies in Archaeology and Cultural Heritage Studies II	KAWAI	
17613	Comparative Prehistory	NAKAMURA S	
17614	Optical Sensing	IYAMA	
17615	Modern Neural Computation	YONEDA K	

○ **Research Support Courses**

Course Number	Course Title	Instructor(s)	Note
T058	Seminar and Exercise II (KU)	Second supervisor	4 credits, Required course
