

April 3, 2020

Dear Faculty, Student and Staff members,

President

Avoid non-essential outings (Attention)

It is our pleasure to welcome new faculty, students and staff members to JAIST in April. I hope everyone put effort into each study and research.

However, COVID-19 infection seems to be spreading in Ishikawa Pref. Especially new students get more opportunities to go out for preparing new life but please avoid *nonessential outings to prevent from spreading COVID-19 infection.

When you go out, please wear a mask, wash your hands and practice cough etiquette.

*outings for resident registration, opening accounts, utilities procedure, and purchasing living supplies (foods, daily necessities) are no problem.
