

Design Creativity SIG Workshop

(1) Date and Time: 25/Aug/2009, 9:00am - 12:30pm

(2) Theme: Directions for Design Creativity Research

Creativity is an important and interesting topic of study in design. This workshop aims to present a forum to discuss the nature and potential of design creativity from theoretical and methodological viewpoints. In addition the workshop aims to discuss the direction of research in design creativity. In particular the workshop intends to establish a framework for themes and research directions for design creativity.
