

Learn by Research. Grow as a Materials Scientist.

GRADUATE STUDIES IN MATERIALS SCIENCE AT JAIST

BUILD EXPERTISE THROUGH FRONTIER MATERIALS RESEARCH

Work closely with leading materials scientists and develop the skills, mindset, and independence to become a researcher.

Energy Materials / Polymers / Nanomaterials / Catalysts /
Electronic Materials / Biomaterials

GAIN HANDS-ON SKILLS WITH ADVANCED FACILITIES

Use JAIST's advanced instruments and shared facilities yourself, with proper training and supervision.

Advanced Instruments / Shared Facilities /
Hands-on Training / Practical Research Skills

BROADEN YOUR PERSPECTIVE IN THE JAIST COMMUNITY

Join one of Japan's most internationalized graduate universities, where diverse cultures and scientific fields meet.

International / Interdisciplinary /
Diverse Community /
Graduate Studies Primarily in English

FOCUS ON RESEARCH, LIFE, AND CULTURE IN JAPAN

Live in a calm, safe, and affordable environment surrounded by nature and Japanese culture.

Safe / Peaceful / Affordable / Nature /
Culture / Focused Research Life
