

When people think of a “career,” they often associate it with jobs, qualifications, or skills. This program invites you to rethink your career as **a way of life**, reflect on your inner self, and take the first step toward **discovering and pursuing your passions**.

16 June 2026 (Tue)

15:30-18:30

For: Current Students

**Mode: Materials Science Lecture Building,
Room M4 / Free**

Language: English

A Workshop for Discovering Your Passions

Career Acceleration Program “SPARK”

Outline

Through workshops and discussions based on the KNOW–THINK–ACT cycle of inquiry, this program aims to help participants discover their own interests (what they like and want to do) and develop the motivation to pursue them.

KNOW . . .

Broadening Perspectives

Understanding the meaning of career planning, recognizing diverse ways of life, and learning how to discover what you truly want to do.

THINK . . .

Facing Yourself

Challenging yourself to deeply reflect on who you are—questioning, analyzing, organizing your thoughts, and putting them into words.

ACT

Expressing, Taking Action

Sharing your ideas with others and turning them into concrete actions.

Program Goals

1

Gain an understanding that diverse life paths exist

- Panel Discussion: Individuals in Japan pursuing their passions and taking on new challenges.

2

Gain an understanding of the importance of pursuing your passions

- Lecture: What does it mean to pursue your passions, and how can you achieve it?

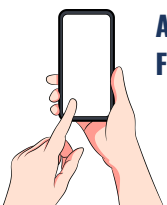

3

Gain a clear understanding of your current standing in your career

- Workshop: Articulating your thoughts clearly
- Peer Sharing: Participants share their ideas in pairs
